

Lumby Lions Club White Elephant Sale Raise \$1,000

LUMBY, Oct. 27.—Success crowned the efforts of the Lumby Lions Club White Elephant Sale on Friday evening held in the Community Club Hall. A large crowd was in

attendance and approximately \$1,000 was raised. The very fine display of goods of all descriptions was auctioned off by H. C. Catt, P. Boyne and S. Hunt.

Baseball Dances Popular With Oyama Couples

OYAMA, Oct. 26.—The Oyama baseball teams were sponsors at another dance given last Friday, October 22, in the Community Hall. It proved to be a successful affair with a very good crowd in attendance.

Joe Baker's orchestra, the "Kalamalkans," provided the music, and refreshments were looked after by Mr. and Mrs. W. Sproule and Mr. and Mrs. G. Sproule. Other arrangements were in the hands of the baseball committee.

Mr. and Mrs. T. Towgood and three boys, accompanied by Dick Weddle, spent the weekend on a fishing trip, to Loon Lake near Cache Creek.

Mrs. A. Spencer left last week, motoring to California for an extended visit.

The regular monthly meeting of the Ladies' Aid was held in the church basement on Tuesday, October 19, with the president, Mrs. W. Carr, in the chair. During the afternoon, the ladies conducted another doughnut sale in the packinghouses, proceeds of which are to be used to buy new hymn books. Mrs. Carr was appointed delegate to the W.A. Kamloops-Okanagan Presbytery conference being held in Summerland today, Thursday, October 23. Tea was served during the afternoon by Mrs. R. Dungeat and Mrs. S. Thorlakson.

The name nylon does not refer to a single substance but to a family of related substances chemically similar; thus plastic has now been known and used for ten years.

LETTERS

Of General Interest

"The Problem of the Pheasant"

Editor, The Vernon News; Sir:

Concerning our pheasant problem, this question has already been so ably covered by your leading article in your issue of September 19, that I feel it is somewhat difficult to add anything more on the subject. In past issues of your paper, I forget when and who the writers were, but some of the ideas to my mind were very foolish and unorthodox. Hardly any or even one of your correspondents came out in the open and pointed out the gradual decrease that has been going on for the past four or five years. The reverse was stated, saying that conditions were good; birds were plentiful and that we were going to have a good hunting season, etc.

The very reverse was the case, birds were getting scarcer instead of more plentiful. I do not know the reason or who to blame for allowing that short open season on the hens, but it was a very grave error and did untold damage to the prospects of the next year. The hens were quite plentiful but not too much so. They were quite tame and made the easiest of targets, rising at one's feet and taking a straightaway flight. Any kid could hardly miss them. There was no sport in shooting them, just a meal ticket!

A very considerable and damaging slaughter must have taken place. I was out on one of the days and saw in the distance four guns and dogs. Birds were very plentiful where these men were shooting and I must have heard

around 50 shots. Fortunately, the dogs were wild and so saved many lives. If the pheasants only knew it, they would realize that these hunting dogs of ours (not all of course) were their best friends. Not the dogs' fault, but many or most that I have seen were wild and untrained, running and hunting far ahead of the guns and flushing the birds when well out of range. Under the circumstances, a very good thing for the birds.

Then, again, I have seen some letters where the writers actually suggested that the scarcity of birds was the lack of food and insufficient cover for birds.

The very reverse is the case. You may shoot pheasants the world over and you won't find anywhere a finer all around country for pheasants than the Okanagan Valley. It is also a most pleasant country for sportsmen, easy walking and our usually lovely fall climates. You could not beat the combination anywhere. Also, when it comes to food, there is ample food of every description for all birds and for thousands more. That is the chief reason why our birds are of such fine size and quality and are away ahead of the Coast birds or those back east.

There has never been or never will be any lack of pheasant foods. I don't know what provisions are made in the way of food in carrying our birds through the long winter months. This is one of the most important problems and one which should be fully answered by the Game Commission and the local gun club. Just what provision has been made for the winter feeding of pheasants?

Personally, I would recommend that feeding can be taken care of by building cheap rough sheds at strategic points and unthreshed wheat or oats dumped into these sheds where the birds could feed and exercise during the few bad months. The cost would not be very readily.

I know for certain that in very bad winters, especially when the snow is deep, many birds die of starvation. Starvation is a far worse menace to pheasant life than are predators. If it is possible, it would be a very great asset, if some, or even one, "game farm" was established in the Okanagan. It would be much better and cheaper in the long run than importing birds from the Coast. This is a problem which a helpful game commission could easily undertake.

I read in a Coast paper last year that the Fraser Valley had released by the game commission 15,000 birds but I understand this was a gross exaggeration; then again I read that in the whole Okanagan there was released only some 500 birds, a beggarly pittance. If this is all the Okanagan actually received it was perfectly inadequate to replace our vanishing numbers.

I wonder how many birds were released this year? This is an important question! Everywhere in our Valley the birds are very scarce and there is only one cure to put matters right, that is to restock on a more than generous scale. The Game Commission and our local gun clubs should take up the matter, if they have not already done so. Ways and means should be found to raise more money in order to re-establish the pheasant shooting in the Okanagan Valley. We have everything necessary but the birds themselves.

It is not alone the sportsman who would benefit but very many others as already pointed out in your article of the 19th ult.

What most of us would like to know is: "Has any constructive policy been mapped out, towards re-establishing reasonably decent pheasant shooting in the Okanagan? If not our Game Commission and gun clubs could be induced to do something really constructive, which is of such vital importance to so many. Not for the sportsman alone but for the prosperity and well being of many others.

R. LECKIE-EWING.
Ewing's Landing,
October 9, 1948.

Editor, The Vernon News; Sir:

I am prompted to write this letter to the press in an attempt to do away with a public nuisance in future years. In my opinion, and that of many others, action has been too long delayed. The citizens of Vernon are gradually being impregnated with something which is not to be tolerated.

Our tax rate in Vernon is 58 1/2 mills, based upon 100 percent on land and 60 percent on improvements; the highest assessment and

mill rate in the city's history and the end is not yet. From the state of our public utilities, it leaves much to be desired.

Apparently aided and abetted by those who should know better, the youth of this city is subjecting the taxpayers to arrogant, saucy and impudent letters, which have been appearing in certain news releases within this city. It is extremely shortsighted of those prompting children to address their elders in such a manner. Certain it is, it will not help their cause.

Perhaps the above comes from the gradual education which has been going on for some years to encourage youth to bait the householder and merchant of this city, promoted by the Kinsmen Club. Locally this club apparently believes it is entitled to put the "bee" on the citizens and say "Or else."

On the front page of The Vernon News, in the issue of October 21, is a first class example of putting on the bee with a demand for citizens to "shell out" and giving warning as to what may happen, by telling their collectors what they may do if the citizens do not come through.

This shell-out campaign is harnessing for commercial purposes a silly and now dangerous, mythical custom which is bad enough if held down by all authority, but when allowed to become a threat to the peace and comfort of every householder and business concern in the city is a public nuisance, expensive, aggravating, nerve wracking and subscribes to juvenile delinquency.

No one, especially elderly people, should be subjected, even for one evening a year, to have to rise and answer a pounding on their door every two or three minutes between sunset and 10 p.m. to endeavor to keep their fences (not any old fence) and wood piles etc., intact. There is no lessening of vandalism perpetrated, definitely the scheme is no protection to property.

Kin efforts in support of certain projects are to be commended but "shell out" should be discarded as wrong from any angle of study in connection with Halloween.

E. W. PROWSE.
Vernon, B.C.
October 25, 1948.

"75, Not 72"

Editor, The Vernon News; Sir:
In your issue of October 21, your Enderby correspondent mentions my 72nd birthday. It should have been 75, because I was born on October 13, 1873. The Old Age Pension Board might see that item and think they have paid me too much money and want three years' pension money returned to them. The money has already been spent trying to open up mining prospects in the Vernon district.

Your correspondent, being a woman, perhaps thinks that men like to have their age under-stated, the way women are said to. Like the newspaper announcement that said, "Miss Mary Brown recently celebrated her 29th birthday. Her twin brother, aged 41, was among the invited guests."

HARRY BLURTON.
Enderby, B.C.
October 25, 1948.

Editor, The Vernon News; Sir:

I quote from a letter of the Rev. Mr. Payne in your last issue: "It is true that one fool may profit at the expense of other fools, etc." Since I am one of those who does buy and sell raffle tickets, I feel that I have been branded a fool. I am annoyed. I do not like to be called a fool. I protest.

The Rev. Mr. Payne has his own view about the morality of lotteries. My minister assures me that the view of our church is that lotteries or raffles are morally indifferent in themselves, becoming good or bad according to their use and purpose. It is the abuse of them, as it is in the case of liquor or like things, that could make the lotteries dangerous or evil.

Now it seems that there may be some argument about the morality of lotteries, but about what Mr.

Procter & Gamble's new TIDE makes washday's most AMAZING PROMISE

No soap—no other "suds"—no other washing product known—will get your family wash as CLEAN as Tide!

THE WORLD'S CLEANEST, BRIGHTEST, WHITEST WASH

. . . only Tide gives you all this. Tide promises you a cleaner wash than any other washday product will give you. Tide leaves even your heaviest family wash free from dirt, and actually removes soap film, too. Yet with all that cleaning power, Tide is truly safe for washable colors! What's more, Tide actually brightens soap-dulled colors. And white things? In hardest water, Tide gets them whiter than any soap or any other washing product known! These are amazing promises, but Tide—and only Tide—will keep them every washday.

Amateur Photographer at Armstrong Wins Award

ARMSTRONG, Oct. 26.—Donovan Armstrong, who for two years has won several prizes in the Vancouver Daily Province photography contest and who last year won third prize of \$100 at the international photo contest at Washington, has been even more successful recently. He won a second prize of \$250 at the same international competition with his picture "Farmyard Love."

On Monday evening the Women's Institute in the City Hall recognized "United Nations Day" with a special meeting. Although unable to get the film for that particular subject, three appropriate films were shown and a brief but interesting address was given by Mrs. R. Crozier.

Harold Wilson, of Kamloops, spent a few days last week at the home of his mother, Mrs. F. Timberlake. During the past nine months, seven of Mrs. Timberlake's eight children have visited her. It is the first time in 23 years that she has seen that many within the year.

Mrs. Fuenfeld returned to her home last week from three weeks spent in Calgary, Alta. She was called there through the illness of her son-in-law.

R. Joslin, with Mrs. E. Procter, arrived home Saturday after spending three weeks at Lacombe, Edmonton and other Alberta points.

Mr. and Mrs. Albert Hope, accompanied by her sister, Miss Mabel Taylor, R.N., of Prince Rupert, left Saturday for the Coast. Miss Taylor has spent part of her holidays in this city and others in Trail and Kelowna.

Constable Alfred Tooley and Mrs. Tooley, of Agassiz, are visiting the former's parents, Mr. and Mrs. Alfred Tooley, Sr.

Mrs. M. MacDonald is visiting relatives in California.

Mrs. M. Miller, of Salmon Arm, left for home on Monday after spending a few days in this city with Mrs. A. J. Sheardown.

Charles Watson arrived home Saturday from a few months spent at Shaughnessy.

William Clayton, youngest son of Mr. and Mrs. F. Clayton, Sr. of this city, arrived last week from Rosedale where he has been employed for the past two years.

Miss A. Hassard is visiting relatives at the Coast.

Mrs. C. Tillapaugh left last week to spend a short visit at the Coast. She was accompanied by her daughter, Mrs. Jack Farrell and baby, who had spent two weeks with her parents.

Cheerio Club Holds Meet At Deep Creek

DEEP CREEK, Oct. 27.—The members of the Cheerio Club held their regular meeting in the Deep Creek Hall on Thursday of last week. Plans were made to help the teacher with a Halloween party and sale tomorrow, Friday, and to hold a pie social in the hall on Saturday, November 13.

Indian summer weather has been prevalent during the last week and farmers have taken advantage of the lovely days to harvest roots. Those that are finished are busy building. Les Silver is making good progress on his new barn and J. Altmeyer is laying the foundation for the new hall.

Electricians from Enderby and Salmon Arm are busy wiring homes for electricity, while the B.C. Power Commission crews are busy putting up poles.

Friends were sorry to hear Mrs. H. Ringland had been injured at the Canoe packing plant where she has been employed. She sustained severe back injuries that will enforce her to stay in the Salmon Arm Hospital for some time.

Stick pins in the cork of any medicine bottle containing poison to prevent taking a dose by mistake.

R. D. "BOB" BROWNE-CLAYTON
Who will carry the Coalition banner to fill the vacancy in the Provincial Parliament for the South Okanagan. A veteran of World War II, Mr. Browne-Clayton, 31, was born in England. He received his education in Kelowna schools and since the war has been engaged in fruit farming at Okanagan Mission.

School District No. 23, Kelowna, B.C.

Famous Fintry Fairbridge Farm Sold to Yakima Men

EWING'S LANDING, Oct. 26.—Fintry has been sold. This extensive property, consisting of 2,500 acres on the west side of Okanagan Lake, has been sold by Fintry Fairbridge Farm Schools to Richard T. Perry and William C. Prater of Yakima, Wash., for an undated sum. The transaction was arranged through the real estate firm of Fitzmaurice Ltd., Vernon.

Cherry, apple and crabapple orchards are bearing on 100 acres of flat land on the point which just out into Okanagan Lake. Above the highway and back in the hills is the "High Farm" where cattle are pastured and hay grown. There is 175 acres of hay land. Shorts Creek flows through the "High Farm" and makes a tremendous drop at Fintry Falls, just behind the livestock buildings on the ranch. From these falls is generated electricity for lighting purposes, pumping and the operating of farm machinery.

Famous Ayrshire Herd

In addition to fruit, cattle and hogs are raised. The Ayrshire herd, established by the late Captain DunWaters is well-known in the Valley. Possibly "Fintry Bell," a champion cow in production about 12 years ago, has been the outstanding member of this herd.

Cream is shipped to Vernon, and the skim milk, and cull apples, are used to feed hogs.

Fintry House, the former home of Captain DunWaters, is a large stone house standing in the midst of well planned gardens and a beautiful lawn. Although the house has been unoccupied for some years, the grounds have been kept up. It is understood one of the new owners and his family will occupy this house.

In the centre of the property is the ranch manager's residence, with administration office.

At the dairy site is a stuccoed five-room cottage, a milk house, chicken houses, and nearby, a bunk house for men.

The dairy barn, sawmill, garages, and other buildings, are situated near the entrance to the property, while high on the hill, with a splendid view of Okanagan Lake, is a charming log building known as "The Chalet."

Pioneer History

Fintry was at one time a stopping place on the old fur trail of the North West Company and later the Hudson's Bay Company. It later became known as Shorts Point. In 1908, the year prior to the opening of the Westside Road, Captain DunWaters purchased the land, and brought it into production.

Before the war he presented the property to Fairbridge Farm Schools as a training ground in agriculture for older boys from the school at Duncan. Financial and other difficulties making it impracticable to operate this property for that purpose, Fintry Fairbridge Farm Schools offered the estate for sale.

Glowing in the sunshine, with brilliant autumn colors and the green of native pine reflected in the waters of Okanagan Lake, Fintry bids its new owners a colorful welcome.

Car Plunges In Lake But None Injured

FALKLAND, Oct. 26.—Three Falkland youths were in a narrow escape from a brush with serious injury on Sunday when their car plunged off the Sleamos Highway into Mara Lake. G. Swift and E. Clark escaped with only shock and minor bruises while the third boy, E. Walmsley, is in Enderby Hospital.

On Saturday, several truck drivers were kept busy hauling gravel to the swimming pool. This was mostly volunteer labor and was much appreciated. Most of the equipment needed is now on hand and completion of the long awaited swimming pool is hoped for by early spring.

Christmas tree cutters are busy in the district now.

It is understood Mr. and Mrs. O. Kent have recently sold their farm near Falkland. They are well known in this district and will be missed if they move away.

No luck, just more experience, was the result of a search for big game by several Falkland hunters who returned on Sunday.

Hector Latremolle, of Osoyoos, was a guest at the home of Mr. and Mrs. W. Hambrook over the weekend.

Mr. and Mrs. Sydney Henth are being congratulated on the birth of a son in the Vernon Jubilee Hospital on Friday.

Mr. and Mrs. H. Thompson, of Edmonton, Alta., are guests at the home of Mr. and Mrs. W. J. McClumbe.

LadieswearCity Girl
Victim in
Car Crash

The tragedy which took four lives early Friday morning, when four people were killed in an automobile disaster near Hope, brought deep sorrow to a Vernon home.

One of the passengers to lose her life was Betty Rouck, daughter of Mr. and Mrs. Adam Rouck, of Swift Avenue in this city. Miss Rouck came to Vernon with her parents and family 11 years ago. She would have been 20 years old next November 28, and was born in Etonia, Sask.

Although the accident occurred in the early hours of Friday morning, and had become widely known by noon, the girls' parents did not hear of it until late in the day. Neighbors were aware of it, but said Mrs. Rouck's manner was as usual, cheerful and bright, which indicated that the tragedy was unknown to her. They refrained from commenting.

Miss Rouck went to Vancouver about three years ago. She was employed as a waitress in the Sky-diner Cafe, 700 Granville Street. When she left for the Coast city early in September of this year, after spending a holiday here, she promised her family to return to Vernon shortly, to stay with them permanently.

Besides her parents, Miss Rouck is survived by four brothers: Jack, of Lumby; Ernest, last heard of on Vancouver Island; Johnny and Eddie, of Vernon; four sisters: Mrs. Lena Manke, Mrs. Katie Brown, Miss Tillie Rouck, all of Vernon, and Julia, of New Westminster.

Press reports on the fatal auto crash state it is believed the car skidded on the slippery pavement of Hope-Haig Bridge at Hope, 100 miles east of Vancouver, crashed through the heavy guard rail and plunged 150 feet to the banks of the Fraser.

Owner and presumably driver of the car was Clarke R. Greenaway, of Cloverdale. Passengers were John Oliver, of Whitehorse, Y.T., Miss Rouck, and another woman believed to be Jean Kopp, said to reside at the same address in Vancouver as Miss Rouck.

Greenaway is reported to have left his Cloverdale home about noon on Thursday, with the expressed intention of picking up Oliver, on holiday from Yukon in Vancouver, and travelling to Merritt for hunting. He gave no indication that any others were to accompany him, and it is supposed he picked up the girls, who may have been hitch-hiking to the interior.

Greenaway, aged 35 and unmarried, was a director of the Lower Fraser Valley Agricultural Association and Cloverdale representative of B.C. Coast Vegetable Marketing Board, and a prominent grower of potatoes and other root crops.

Oliver, also unmarried, was on his way to Kamloops to visit his sister. The automobile was a new Chrysler machine, and was telescoped beyond recognition. When found by a hunting party en route to Vancouver, which arrived just after the car had made the plunge, all four occupants were dead.

Valley Air

(Continued from Page One)

ing expenses of the two aircraft to be used—an Anson Five, eight passengers, and a Stinson, three-passenger.

Mr. Dyck also stated that the company anticipates three trips a week, or six flights. "We will provide service on demand as the traffic warrants." Suggested tolls were based on 12 cents per passenger per mile and from Vernon to Kamloops was suggested at about \$7.10. Air freight would also be handled.

Passengers served in charter flights by L. and M. were listed by Dan McIvor, accountant. Passengers averaged 12 a month from January to September. "After the floods, traffic more than doubled" and during the hearings flood conditions were given as a strong reason for increased public consciousness of the air service.

City Representatives

Representatives of various cities and interested officials were: Alderman Jack Potchecary, of Armstrong; Alderman J. H. Horn, of Kelowna; George C. Hay, of Kamloops; William Helmsing, president of Vernon Aviation Council; Cecil Willis, president of Lumby Board of Trade; Jack McBride, traffic representative for C.P.A. at Penticton; W. S. Lawson, District Inspector of Western Airways, Department of Transport.

Unsatisfactory Sunday service in transportation; a faster service by air; improvement in business and industrial travel and communication, and a growing public desire for air travel services were all mentioned by various representatives in support of the application.

SQUADRON ORDERS

1. Parades—A Squadron will parade at the Vernon Armouries on Friday, October 29 at 1945 hours.

2. Training—Map reading, gunnery, wireless and driver maintenance.

3. Dress—Battle dress, roll call order.

4. A Muster Parade will be held in November and all ranks are warned not to miss this parade if they are to draw any pay.

Egg Prices

(Continued from Page One)

pullets' eggs. "There are none around here," he said on Wednesday. This same retailer has had no Grade A eggs for over four weeks.

Another old-established store in Vernon states they have no hope of getting Grade A eggs. Pullets' eggs have been on their shelves from the prairie, retailing at about 56 cents a dozen.

It is admitted by everyone that the fall is the hen's vacation time. Production is always low at this season. The major factor this year, however, is said to be the price of feed. This, one dealer states, has risen to about \$3.80 a sack, a jump of \$1 from the previous \$2.80 two months ago.

"While the egg situation is fairly serious, it will rectify itself within a few weeks," said Guy P. Bagnall, of Vernon Egg and Poultry Exchange, on Wednesday.

"Farmers have reduced their stock, becoming discouraged. In some cases they have killed off all their hens," he declared. There is a definite shortage both east and west, continued Mr. Bagnall. "I could sell a carload of eggs if I had them," he declared.

From a check made by this reporter, it seems that what eggs are to be had, are being shipped in from Alberta.

One grocer told The Vernon News of a report that 12,000,000 farmyard biddies are not going about their big business of egg production this fall; in plain words, Canada is short that number of laying hens.

The current price is 72 to 75 cents per dozen for what Grade A's are available is the highest in many years, with the exception of last summer, although in Kelowna, nearly seven cents per egg is predicted for the coming winter.

Some people remember that eggs were 90 cents per dozen after World War One.

The housekeeper must look to the future regarding her Christmas baking, only just around the corner for the "good manager."

Where perhaps she may be planning to send holiday cakes and puddings to austerity-encircled Britain, she may revise her plans in the light of a recent conversation The Vernon News had with an

Indoor Carnival to
Be Held by Elks Club

All the glamor and excitement of a carnival will be offered at the indoor celebrations sponsored by the Vernon B.P.O.E. Elks Club in the Scout Hall, tomorrow, Friday, and Saturday nights. The evening's festivities will commence at 7:30 o'clock and continue until everyone has had their fill. A Saturday afternoon program will run from 2 until 5:30 o'clock.

With the revival of the Elks carnival, the organization hopes to expand their Christmas charities this year and any surplus from that fund will be used in hospital furnishings.

The booths at the Scout Hall will be featured with many games of chance and skill: dart games, doll booths, hoop-la and many other popular carnival novelties and attractions.

The Elks are hoping the public will patronize the carnival to help spread the Christmas spirit among those who need it most.

Old Country visitor. She declared that English home makers would rather have dried fruits and a little fat, than anything. Raisins, dates, figs, prunes, peel, and particularly currants, are more than acceptable, she said.

WHAT PRICE

DEMOCRACY?

Democracy is without price... no one can ever take it for granted or assume it is paid for in full. It is an inheritance we are duty bound to pass on... not only to the next generation, but to our fellow men everywhere who have yet to enjoy its full benefits.

Democracy grew from a great ideal... that all men are born free and equal and are deserving of the same privileges. It can live on only if we constantly strive to fulfill this ideal and protect the priceless freedoms won.

Moderation is one of the chief safeguards of democracy. By being moderate in our thinking, in our actions, and in our pleasures, we are living democratically.

As The House of Seagram has so often stated, by being moderate in all things, including the enjoyment of whisky, we are acting for the common good.

Men who Think of Tomorrow
Practice Moderation Today!

non News that the rates were set after the Trustees had taken a cross section of water used on various properties of varying acreages, so as to determine the most equitable increases in taxes and tolls for the average taxpayer and water user.

Taxes are payable on the last day of February, 1949.

First Grass Fire In Vernon

The "one and only" grass fire of the year in Vernon occurred south of the Armouries in the Army Camp at 4:30 p.m. on Tuesday.

The local fire department responded and extinguished the flames, reporting no damage. A chimney fire brought out the Vernon Fire Department at 11:45 a.m. to 2108 33rd Street.

The metal blum is so soft that it can be cut easily with an ordinary pocket knife.

Engineers

(Continued from Page One)

Cousins as the dwellings are sub-standard. A well has been used for water supply in the past, which has been tested and found to be healthful.

A petition signed by 15 people, asking that E. H. Williamson be permitted to establish a small business in the easterly section of the city in the vicinity of Silver Star homestead was "respectfully" rejected by the City Council. The signatories to the petition are not residents immediately adjacent to the property on which Mr. Williamson wished to establish a store. He has been advised to find a new location and the matter has been referred to the Town Planning Commission.

Town and District

Mr. and Mrs. Lou Maddin returned to their home in Vernon on Saturday morning, after a few days' holiday.

L. A. C. Kent, of Okanagan Landing, and his son, J. D. Kent, of Vernon, are spending a fortnight's holiday at the Coast.

Mrs. W. C. Rogan, of this city, is spending a short holiday in Vancouver with her mother, Mrs. A. O. Cochrane, formerly of Vernon.

Mr. and Mrs. Cecil Clark returned to the city a few days ago from Vancouver, where the former attended to some business, and where the couple also visited Mr. Clark's family.

Mrs. P. C. Armstrong, of this city, accompanied by Mrs. J. Carpenter, also of Vernon, left on Thursday of last week for an extended visit to Vancouver and Fraser Valley centres.

Miss Lena Miller arrived in Vernon on Saturday to spend the day with her mother, Mrs. M. Rutan, and sister, Miss Gertrude Miller, en route from a visit in Longview, Wash., to her home in Revelstoke.

Mr. and Mrs. Cecil Johnston left last weekend for San Diego, California, where they will spend the next few weeks. They plan to visit in Victoria for Christmas, returning to Vernon just after the New Year.

Mrs. W. J. Hicks, of this city, left on Friday evening for a few days' holiday at Vancouver. In the Coast city, Mrs. Hicks will visit her mother, Mrs. J. Connery, of Prince Rupert, and her mother-in-law, Mrs. J. Hicks, of Vancouver.

Mrs. Mabel Currie has been the guest of Mr. and Mrs. Jack Williamson for the past week, coming here from Winnipeg. She plans to leave this evening, Thursday, for Vancouver, before returning to her home in Wenatchee, Wash.

Ernie LeCours returned to Vernon on Friday after a trip to Eastern Canada and the United States, going straight through to Osa-awa, Ont. From there by automobile, he drove to Toronto, Kitchener, and Windsor, Ontario; to Detroit, Chicago, Madison, Duluth, Minot, North Dakota in the United States, up to Regina, Sask., where he visited for a day with various members of his family, and was joined by his parents, Mr. and Mrs. A. LeCours, who accompanied their son to Vernon, via Spokane, Wash. They will spend part of the winter in this city and continue to Victoria later. Mr. LeCours said he experienced snow in Wisconsin. "Nowhere were the roads any better than from Osoyoos to Winfield," he says.

Ernest P. McDonald returned to Vernon Saturday morning, after a buying trip of a week in Vancouver.

Mr. McWilliams has lived in Vernon since 1916, coming here from Vancouver. He enjoys good health and follows an active life.

John H. Fells, Ernest McConnell and Henry Sigalek left on Friday of last week for Leno, located east of Golden, to hunt big game.

Douglas Kermode returned to Vancouver last Monday after an absence at the Coast city since the previous Thursday. He made the trip by air.

Mr. and Mrs. A. McDougall, having sold their home in Vancouver, have come to Vernon to reside with Mrs. McDougall's parents, Mr. and Mrs. R. Carswell, Sr.

Leaving for the Coast on Friday evening was Alderman Fred Harwood, who attended a meeting of the A.T.A. in Harrison Hot Springs on Friday, continuing to Vancouver on Saturday for a short business trip.

Mrs. William J. Chernecki is visiting in Vernon this week. Her husband, one of the owners of the Commercial Hotel at Hope, B. C., was at one time the proprietor of the Deluxe Recreation Parlor in Vernon.

Mr. and Mrs. Elmer Carswell and Mr. and Mrs. O. P. Baron, all of this city, travelled to Chilliwack together by motor last weekend, leaving Saturday, returning Monday. Mr. Carswell was on a short business trip.

Mrs. W. D. McKenzie, of this city, is spending two weeks in Nanaimo, the guest of her daughter, Mrs. J. Baker, the former Miss Muriel McKenzie. Mrs. McKenzie took her small granddaughter, Barbara McKenzie, for a visit to the Island with her.

Guy P. Bagnall left Vernon last evening, Wednesday, to attend the Regional Conference of B. C. Division, Town Planning Commission, to be held today, Thursday, and Friday in Vancouver. Mr. Bagnall is chairman of Vernon Town Planning Commission.

Mr. and Mrs. Gomer Davies, their son, Trevor, and their daughter, Mrs. George Nuyens, returned to Vernon on October 18 after a few days in Vancouver, when they attended the wedding of the former's daughter, Miss Helen May Davies, R.N., and Arthur A. Jones.

Mrs. Jack Sanderson, of Banff, Alta., was in Vernon on Monday en route to Armstrong for a short visit, going from there to California on a vacation trip. Mrs. Sanderson, the former Miss Violet Leckie-Ewing, had been the guest of her parents at Ewing's Landing for a few days.

Capt. H. D. Jenner, H.Q. Staff, Royal Canadian Corps of Signals, Ottawa, with Mrs. Jenner, were recent guests of the former's brother and sister-in-law, Mr. and Mrs. T. R. Jenner, of Okanagan Landing. Capt. and Mrs. Jenner left for Eastern Canada on Wednesday evening of last week.

His ninetieth birthday yesterday, Wednesday, October 27, was just another day to G. A. McWilliams, of Vernon. He went about his regular round of duties in his shop on Tronson Avenue as usual, where he is Singer Sewing Machine agent. A family gathering was held at his home, 3905 32nd Street, in the evening.

Rev. L. A. C. Smith was guest speaker yesterday afternoon, Wednesday, at the Autumn Thanksgiving meeting of Vernon United Church Women's Missionary Society. Mrs. William Niles conducted the meeting, with Mrs. Charles Wyllie playing the piano for the hymns. Mrs. L. A. C. Smith read Psalm 103, with Mrs. Pamela H. Hurlburt leading in prayer. Vocal soloist was Mrs. Dick French, accompanied by Mrs. Daniel Day. Mrs. W. L. Pearson thanked Mr. Smith, Mrs. French and Mrs. Day on behalf of the meeting.

Mr. and Mrs. Norman Bartlett, Mr. and Mrs. H. J. Fushrooke, Mr. and Mrs. Russ Dicks, Mr. and Mrs. C. J. McDowell are in Vancouver this week. Mr. Dicks, past president, Vernon Board of Trade; Mr. Bartlett, current president, and Mr. Fushrooke, vice-president, and Mr. McDowell, attended the 19th annual meeting of the Canadian Chamber of Commerce, said to be one of the most important in the Chamber's history. Delegates attended from as far east as Newfoundland; Saint-John, Quebec; Montreal, Winnipeg, Alberta, as well as many from B. C., to a total of over 250. Meetings were all in Hotel Vancouver, and last until today, Thursday.

Mr. and Mrs. Ray Pake, of Falkland, were Vernon visitors on Sunday.

J. H. Watkin returned to his home in Vancouver last evening, Wednesday, after a short business trip to Vernon. He arrived last Monday.

Mrs. Grace Reader arrived in Vernon from Vancouver last Thursday morning, and plans to make her home in this city with her son and daughter-in-law, Mr. and Mrs. R. A. Reader.

J. S. Thomson, of the W. H. Malkin Co. Ltd., at Vancouver, was in Vernon this week on a short routine business visit. He was accompanied by Gar Emery, also of Vancouver.

Another member of the Vernon Art Group, Miss Adrienne Cooks, had a watercolor painting, "The Pink Madonna", exhibited at the recent B.C. Artists' Exhibition held in Vancouver.

Edward Mattock, of this city, District Deputy of B.P.O.E. Elks Lodge, will visit the Kamloops Lodge today, Thursday, to officiate at an installation ceremony. He was accompanied by Tom Campbell, also of Vernon.

Mr. and Mrs. L. C. Tull, of this city, spent the weekend in Vancouver. While there they attended the wedding of their son, Arthur, and Miss Irene Ironside, of Vancouver, which was solemnized in that city on Saturday evening.

E. O. MacGinnis, of Victoria, markets commissioner for the Provincial Department of Agriculture, was a visitor to Vernon on Friday last during the course of a tour of the Okanagan. Mr. MacGinnis is a former resident of Vernon and Kelowna.

Miss M. McGregor, of the Calgary Skating Club, is expected to arrive in this city about November 8, where she will act as instructor for the Vernon Figure Skating Club this winter. On her arrival, she will be the guest of Mr. and Mrs. Frank Boyne for a few days.

A visitor to Vernon on Tuesday, and a stranger to the city and to the Okanagan, was Mrs. D. E. Oliver, now of Vancouver, but who has recently come to this country from England. The reason for her trip to the Okanagan was to discover for herself the beauty of Vernon and its environs, of which her brother had written during the time he was in the Military Camp here preparing to go Overseas in the 1914-1918 war. Mrs. Oliver's brother was Claude H. Cox, who gave up his corporal's stripes in the 11th C.M.R.'s, to go overseas with a draft. He was in the Vimy Ridge engagement in 1917 when he was wounded, and from the effects of which he subsequently died. Mrs. Oliver said it had been her desire ever since to visit this district, as her brother had planned to establish an orchard here or in the Niagara Peninsula. Mrs. Oliver visited the campsite; enquired about the city, its size, people and other details as it was 30 years ago. She called on Mayor T. R. B. Adams, who made civic records available to her. She also perused The Vernon News' files of that period in an endeavor to recapture the city of which her brother wrote in enthusiastic and affectionate terms. Mrs. Oliver returned to Vancouver yesterday, Wednesday.

The NUT SHOP

"THE HOUSE OF A MILLION NUTS"

J. G. Strother returned at noon yesterday, Wednesday, from Calgary, after a business trip there.

C. R. Asher, of Montreal, was in Vernon recently during a business trip. While here he visited at the home of his mother, Mrs. J. A. Asher.

Mrs. Gordon Ramsey and little son, John, returned to their home in Keremeos recently, after visiting with Mrs. Ramsey's parents, Mr. and Mrs. J. Fred Simmons, of this city.

Mr. and Mrs. W. Ruckles and son, Gordon, returned to their home at Kalamalka Lake last Friday after six weeks' absence on a combined business and pleasure trip. They visited in Winnipeg, also in Calgary and other Alberta points, Mrs. Ruckles enjoying a little duck hunting in the last named province. They made the journey by motor.

Miss Lena Miller arrived in Vernon on Saturday, after spending a holiday with her sister and brother-in-law, Mr. and Mrs. Roy Chamberlain, at Longview, Washington. Miss Miller left for Revelstoke on Saturday evening after visiting for the day with her mother, Mrs. M. E. Rutan, and sister, Miss Gertrude Miller.

Church Service for Ewing's Landing to Be Held on Sunday

EWING'S LANDING, Oct. 26.—
Recently appointed rector of All
Saints' Church Parish, in which
parish Ewing's Landing is situated,
Rev. L. A. C. Smith is endeavoring
to make parochial calls in the dis-
trict on Friday afternoon, October
29, to arrange for church service
in the school house on Sunday
afternoon.

Honoring Mrs. Guy Byron-John-
son, a former president of the Ed-
monton Branch, Business and Pro-
fessional Women's Club, that or-
ganization is holding a special
showing of the Vernon-made film,
"The Home Town Paper," to wit-
ness Mrs. Byron-Johnson's per-
formance in the role of "The Coun-
try Reporter."

Louis Deighton, of Oliver, is em-
phatic in his statement that a large
bulldozer is required to widen the
Westside road at certain points.
Endeavoring to pass another car in
the semi-darkness just north of
Wilson Landing, two wheels of his
car went over the bank. It was
necessary to leave the car there all
night. All of Saturday morning
was wasted in bringing the vehicle
back on the road. If he had taken
the route via the ferry he would
have travelled 75 additional miles
to reach his destination.

Lavington P.-T.A. Members Plan Hallowe'en Fun Fest

LAVINGTON, Oct. 26.—At the Parent-Teachers' Association meet-
ing held in the school on Tuesday evening of last week, membership
fees were collected by the secretary, Miss Hartman, and plans were
completed for the Hallowe'en party to be held for the children on
Friday evening at 7:30 o'clock in the Community Hall. Prizes will be
offered for the best costumes.

There will be a huge bonfire with
firecrackers, while hot dogs and
cocoa will also be served.

During the meeting a discussion
was underway for the possibility
of a film projector for the com-
munity, which would be a great as-
set. However, the actual cost could
not immediately be given and this
item will be mentioned again.

The school principal, Miss Law-
rence has offered to obtain more
information on the subject. The
next P.-T.A. meeting will be held
on Tuesday evening, November 9,
when the Christmas tree plans will
be the chief topic of the evening.

Harvest Thanksgiving service for
the United Church was held in
the school for Sunday afternoon
with special music for the occasion.
Rev. Hugh Ramsay officiated.

The little girls of the "Busy Bee"
Club have again commenced their
weekly meetings at the home of
Mrs. Calder Goodenough. Chosen

for their president is Lorraine For-
ry, the secretary will be Joan Mc-
Donald.

Good Attendance

There was an exceptionally good
attendance last Tuesday evening
at Mrs. C. Reynolds' home by group
members, when arrangements were
made for the Christmas Bazaar, to
be held in the hall on December 3
in the evening. The Work Group
are also catering for a big banquet
for the Lions Club of Vernon, which
will take place in the Memorial
Hall during November. Next meet-
ing will be held at the home of
Mrs. Orville Anderson, on Novem-
ber 4.

Orville Anderson and Jack Brett
returned from Burns Lake during
the weekend. The former bagged a
big moose on the trip.

Bountiful Harvest

Beautiful weather still prevails,
with heavy dew at night. Farm-
ers are now getting in carrots. Po-
tatoes are mostly all in now and
crops are in good shape. This has
been for most growers a truly
"bountiful harvest." Every cellar
and roothouse in the vicinity is
apparently full to overflowing.

A. and G. Pound left on Wed-
nesday last on their way to their
home in eastern Canada, after sev-
eral weeks in the Okanagan Valley,
where they have assisted in har-
vesting the fruit crops.

R. Schmitt, of Blue River, spent
the weekend at his home in Lav-
ington.

B. Kennett arrived here last week
from Barons, Alta., to spend a
holiday with Mr. and Mrs. G. He-
gedus.

Three newly wed couples re-
newed their acquaintance last week
when Mr. and Mrs. Harry Rambo
brought friends from the same
home town on the prairie, to visit
with Mr. and Mrs. Ernest Roth at
the old Gillespie Ranch in Lav-
ington.

Salmon Valley Ships Record Seed Crop

SALMON VALLEY, Oct. 25.—Last
Thursday there was shipped from
this vicinity the highest valued seed
crop ever to be produced here, in
the form of about three tons of
the hizoma alfalfa seed, grown on
the farm of A. Needoba, of Salmon
Bench. Dr. Moe, of the U.B.C., has
been in charge of the supervision
of this 20-acre field for the past
two or three years but this is the
first year that any sizeable yield
has been realized.

A whist drive with a Hallowe'en
atmosphere will be held at the
Heywood's Corner School on Fri-
day, October 29, to raise funds for
the Christmas entertainment.

A C.C.F. executive meeting was
held at Heywood's Corner School
on Sunday afternoon with repre-
sentatives attending from Canoe,
Falkland and Salmon Arm.

English Culture

(Continued from Page One)

questions asked in Canada, said
Miss Fulton. She stated that the
brown bread is good and that she
liked it. "People with money can
eat out sometimes; people with
children are able to save coupons
and points owing to the hot meal
served at noon in all the schools;
business men and women may have
their lunch in town; all these cir-
cumstances make it easier for the
housewife. But people who have
no children and cannot afford to
take meals away from home, are
the sufferers," she declared, men-
tioning also iced cakes available at
a London teashop; "strawberries
and cream and thin bread and but-
ter" served at tea time in rural
England.

Describing the giant Queen Eliza-
beth quietly sliding up the English
Channel on her arrival in England:
"I thought of Julius Caesar and
William the Conqueror; I thought
of D-Day and a Canadian soldier
seeing this country for the first
time."

Miss Fulton told of the excellence
of the English roads, even so-called
country lanes. These have all been
put in good condition since the
war.

The England of books and pic-
tures, of story and film, still exists,
said Miss Fulton, who told of Nor-
man churches, in their age-old set-
ting near the village green; of
thatched cottages; and the beauty
of the countryside.

England is not commercialized,
said the speaker. Stratford-on-
Avon, Tewkesbury, and Wuthering
Heights are as casual a piece of the
landscape as if they had no his-
torical significance, she declared,
when actually Stratford-on-Avon is
the tourist centre of the world. She
visited Shakespeare Memorial Thea-
tre, Anne Hathaway's cottage, and
other well known landmarks.

The speaker made a plea that
Canada should not copy American
cultures. In America, she said,
values are different; with empha-
sis placed on material things and
standardization. "While I do not
dearly American culture, it is a
healthy tendency to counteract this
by English and European influ-
ence."

Speaking on English education:
"The best education is better than
ours; the worse is poorer."

Miss Fulton dwelt on the ballet,
music and opera, in which there is
a "tremendous activity" now in
England. She heard Handel's
"Messiah" in the Albert Hall; visit-
ed Covent Garden but found her
greatest attraction in the legitimate
stage.

"The England of story; with its
grace and charm, is not for every-
one. Its culture is for the few,"
she said. "The vision of New En-
gland is something to be enthusias-
tic about." The speaker said a
"poor impression" has been created
in Canada of the socialist govern-
ment because of biased press re-
ports. Austerity is stressed. The
lack of petrol, fats, and other com-
modities is made much of. "The
press does not give a fair picture,"
she continued, stating that Winston
Churchill is "not taken nearly so
seriously in England as he is here."
"If socialism can work anywhere,
it can in England, because of the
freedom there." Here Miss Fulton
enlarged on the overworked word,
"freedom."

"In England, nothing is compul-
sory." She said the political shades
of opinion of all classes are freely
expressed; everyone talks "and they
leave it to the intelligence of the
individual to make their decision."
The speaker concluded by making
a plea for understanding of other
countries who want their independ-
ence, and to manage "their own
affairs in their own way. We
should be humble in judging other
countries."

Mrs. Butler thanked Miss Ful-
ton for her address.

The next meeting of the Wom-
en's Canadian Club here will be on
November 15, when an address will
be given on the R.C.M.P., by Lt.
Col. Steele.

Basketball Season Debuts
As Home Teams Break Even
With Summerland Clubs

Vernon hoisters opened the 1948-49 basketball season here Saturday night at the Scout Hall by splitting a two-game engagement with the Summerland aggregations. In the preliminary battle, the local intermediate five, after trailing all the way, managed to break through Summerland zone defence for two quick baskets in the final minutes to take the contest, 36-33. The senior fixture was the reverse with Vernon taking a big 22-10 lead during the first half, only to see the visitors roar back with a speedy, fast breaking attack that left the home squad baffled. When the final whistle sounded, with Summerland winning 40-34, the locals were wondering what had happened.

For the first quarter, the intermediate squad played without the aid of their high scoring centre, Dick Douglas. They seem to be throwing passes everywhere where needed. But with the game in the game, they managed to come within striking distance of the visitors and trailed 18-17 at the first half. The teams potted basket for basket in the final quarters until within three minutes to go, Jack Graves found the opening for two quick counters, giving Vernon the win.

Ice Squad Dealt
Crippling Blow
By Zemla Injury

The Okanagan Mainline Hockey League hasn't even started and already the Vernon entry has suffered a crippling blow to its attacking forward lines.

Mike Zemla, one of Vernon's leading scorers last year, is lost to the team for the season through a broken elbow, suffered when he fell to the ice at the initial workout of the team last week. The speedy winger was operated on last Sunday and his elbow had to be bound and moved into place.

On the 1947-48 squad, Johnny Loudon, Stan Berry and the veteran Zemla formed one of the most dangerous scoring threats in the league.

McKinnon Wins
Watkin Cup In
Golf Tournament

Winds and scattered showers failed to halt play in the finals for the Watkin Cup 18-hole handicap between David Seymour and Earl McKinnon at the Vernon Golf Club on Sunday. The two finalists battled to the eighteenth hole before Seymour gave ground and McKinnon captured the popular trophy.

To gain the right into the finals, Seymour had to beat Reg McKerran in the semi-finals. This game was played on Thursday afternoon and was won by the blond divot digger who scored four up with three to go.

As winter draws near, golf is fading out of the limelight, but local golfers aren't finished yet. The finals in the Gillespie Cup play will be completed this Sunday when Mr. and Mrs. James Douglas will meet Mr. and Mrs. Charles McDowell for the right to meet Jack Kent and Doreen Hannah for the prized trophy.

However, this event does not conclude the 1948 golf season as play is scheduled for the Waterloo Mixed Cup at the season's end.

Player Awards
For Local Team

Hockey fans this winter will have the opportunity to select the "most popular player" on the Vernon senior hockey club. On the inside page of the hockey program to be given out at each game, will be a ballot form, and fans are asked to write in the name of their favorite player on the team.

The ballots are to be placed in the popular player boxes which will be located at each entrance of the arena. The votes will be tabulated after each game and a record and standing will be published each week on the inside of the program.

At the end of the season the player with the most number of votes will receive valuable merchandise donated by Walter Patton.

There will be further opportunities for players to win a cash award of \$25 to be presented to the cleanest player on the team. This will be determined by the number of penalties received during season's play. The goaltender is not included in this contest. The player spending least time in the sin box will receive the cash award which has been donated by Tommy Muir. In the event of a tie, a five-man committee comprised of league officials, radio and press will decide the winner.

Fans are asked to do their part in supporting hockey and the players by filling out the ballots and dropping them into the boxes provided.

Hockey Schedule Released

Wednesday, November 3, is the long-awaited opening date of the Okanagan Mainline Hockey League. Hockey fans will get the first opportunity to see their Vernon team in action when it takes the ice against Johnny Ursaki's Kamloops Elks. All three entries in what appears to be the biggest Okanagan hockey season have been working out for the past two weeks. A little thing like no ice hasn't stopped the Kelowna Packers as Coach Kenny Stewart has had them training and getting into condition out on the city's race track.

This year may be the beginning of big things in Okanagan hockey. Many fans are stating "Senior A for Vernon in two seasons." This year could tell.

Here is the 1948-49 Okanagan Mainline hockey schedule, released Tuesday morning by Charlie Fullford, president of the circuit.

Minor Puck
Plans Made

Wally Savage, formerly of Trail, was named to head the Vernon Minor Hockey Association, and Gordon Carr was voted vice-president at a meeting held in the library of the Elementary School on Friday.

Mr. Savage is well known in B.C. hockey circles, having coached the Trail Midget Smokies to a British Columbia championship last year. He was also the president of the Trail Booster Club which directs and sponsors over 400 minor hockey players in that city. Gino Wiseman, prominent in minor hockey for the past few years, was elected as secretary-treasurer, and "Bud" Anderson, past president of the association, will be consulting executive member.

A committee was appointed to approach local organizations so that a representative could be named to act with the hockey executive in acquiring financial support or sponsorship from his club. The clubs to be approached are: Lions, Elks, Knights of Pythias, Rotary, Oddfellows, Masons, Klansmen, Legion and B.C. Dragoons.

The association has introduced a new registration from which will be issued in schools or by any member of the executive. These must be filled out by anyone taking part in minor hockey this year before the boy will be allowed on the ice. This form will aid the executive in obtaining the number of boys interested and also as to practice times for students.

A plan was outlined by Gordon Muir that the city be approached to box in the area directly west of the "High School" for the purpose of holding hockey practice in the off hours of the school shift system and for any extra practice. The

"Fighting, Hustling" Puck Group
Promised Vernon Hockey FansWide Experience
In Sport World
By Hockey Boss

The Vernon Amateur Hockey Association has taken a big step this year in assuring local fans that the day of Senior A hockey for this city is not very far away. With the bringing of the well known Laurel Harney here to handle coaching duties, they have moved ahead still another notch in reaching the best amateur hockey class in Canada.

Laurel Harney was the "first child born" in the little town of Lougheed, Sas., and he played minor hockey there until the 1935-36 season when he tended goal for the Western Canadian Intermediate champion Vegreville squad. He next stepped into senior company with the Drumheller Miners in what is now called the Western Canada League, one of the best in Canada.

Olds Elks was the next stop for the travelling netminder, but this city could not hold him and during the 1938-39 campaign he guarded the twine for the Gainers Superiors in Edmonton who won the Western Canadian championship. These finals were played here in Vernon.

Just before the finals, Laurel left the Gainers to attend the (Continued on Page 11)

"Our success this season will depend on how long it takes for our material to mould into a unit. We hope the public will have patience until this happens. We feel safe in saying Vernon will have a fighting and hustling club." These views were expressed by Laurel Harney, pilot of the Vernon entry in the Okanagan Mainline League, in an interview on Tuesday.

The well known coach complimented Vernon on the enthusiasm and interest taken by the officials handling the hockey situation. "This interest goes a long way in creating a fighting hockey club, which I like and promise will be iced," stated the mentor of many hockey and ball clubs throughout Canada and the States.

The addition of the new arena at Kelowna will make the Okanagan Mainline League the best intermediate circuit in the province. The new arenas, going up in Kam-

loops and Kelowna, will force each city to bring in a better calibre of hockey player each year and therefore improve the league and take further steps towards bringing senior A hockey to the Okanagan, he continued.

Minor hockey will be considerably aided this year, asserted the coach, as the youngsters will be able to watch some of hockey's best in Dave McKay, Ken Stewart and many other senior pucksters performing in the league.

500 Pheasants Liberated In Vernon and Armstrong Districts, Game Meet Told

Some 500 pheasants have been liberated in the Vernon and Armstrong districts this year by the B.C. Game Commission with the intentions of investigating where these birds go and what happens to them. It is believed by the Commission that some are killed by sportsmen, some by Indians on the reserves, some by DDT poisoning and others by farmers protecting their fields. This was one of the main points of discussion at the general meeting of the Vernon and District Fish, Game and Forest Protective Association held in the Burns Hall on Friday.

The evening's program was opened by a film presentation by J. G. Cunningham, B.C. Game Commissioner. The picture, which cost an enormous sum to produce, dealt with the commission's game and bird problems. It showed the over-grazing of areas by game animals and brought out the fact that if some of the big game is not shot it would die anyway from lack of food. This is the case particularly in the moose problem.

Duck Lake Problem

Slides were shown next by J. A. Munro, Migratory Bird Officer for Western Canada. He showed colored photographs of Duck or Sidar Lake in the Creston area, along with the slides of artificially created bird sanctuaries in the United States. The Americans are working out a reclamation scheme where U.S. Wildlife Services are buying, at a huge price, thousands of acres of land suitable for the flooding and building of migratory

bird sanctuaries.

With the conclusion of this part of the evening's meeting, under the chairmanship of president Bob Carswell, turned to the general discussion of local and provincial fish and game problems.

The question of the drainage of Duck or Sidar Lake brought much comment from the gathering. In dealing with this problem, Mr. Carswell called upon Phil Eastman, president of the B.C. Fish and Game Zones' Council, to explain the situation as it stands to the meeting.

The Creston Reclaiming Company has sent in an application to have a large portion of the lake drained for agricultural purposes. "This action has not met with the approval of B.C. sportsmen and some bordering American states," emphatically stated Mr. Eastman, and "a strong representation has been made to the B.C. cabinet but no decision has been reached at the present time." The speaker advised the associations in the district of the necessity of acquainting all M.L.A.'s with this situation and request their assistance in the legislature for a final decision favoring the sportsmen and wild life.

Archie Blackie, president of the Kelowna Rod and Gun Club, addressed the meeting on his club's behalf and congratulated Vernon on their undertaking in starting a rearing pond in Polson Park. He assured the Vernon group any assistance the Kelowna club could give would be done so with "great enthusiasm."

Pheasant Situation

"The pheasant is a domestic bird," continued Mr. Blackie, and since food and grain is plentiful on farms and Indian reserves they are settling there in great quantities. On the farms and orchards they are being found dead from DDT poisoning and other bug and insect killing substances, he stated. In 1943, the grouse and pheasant were at their peak but most of the birds shot were quite old and it looked as if the birds were lost before reaching maturing age. This, he explained, must have been caused by the spray poisonings and by the fact that the past four years has shown a terrific increase of hunters in the district.

The final speaker of the evening, Game Commissioner Cunningham, answered and explained to the sportsmen some of the questions which have caused a considerable stir in local game clubs. "The Okanagan is in favor of a split season on ducks and actually in B.C. there is an open season on ducks and migratory birds from the first of September to the last of February. If a split season was released the actual shooting time would be considerably lessened, he declared.

The speaker was then questioned concerning the issuing of hunting permits to farmers in B.C. In reply, Mr. Cunningham pointed out that after an investigation is carried out by the game warden and if he reports that pheasant are doing damage to the farmer's property, the farmer is given the right to protect his crop. It was also emphasized to the meeting that nothing could be done about the Indians shooting birds all year round on the reserves. They are protected by the British North America Act. Probably the most discussed question in local game centres is the large American hunting units coming into B.C. equipped with the most modern hunting apparatus, and who are allegedly taking away a great deal of big game. This is not the case, stated Mr. Cunningham. "The visiting sportsmen are not taking an outstanding amount of game and they are leaving a considerable amount of revenue in the district."

British Columbia has had a lot of trouble this year with the high water all over the province. Many of the fish traps were reported very short of their usual catch, but a modern hatchery has been built at Summerland by the Commission and this is proving very successful. Closed Season

In commenting on the closed season decisions for pheasants, the speaker reported that the Commission decided a very short season on the bird was in order, but a petition signed by game clubs in the Okanagan carried enough weight to force the action of the closed season to be taken. Just as soon as this was done, the Commission received a letter from the Vegetable Marketing Board demanding an explanation of the action taken. He pointed out Mr. Cunningham, "we of the Commission have to take many things into consideration before reaching a decision."

The trapping of birds is being worked out by the Commission and it is hoped by next year that a successful system will be in operation.

The wintering movements of farm-raised birds driven across into trees, solid fenceposts and the weatherboards of buildings.

New Method of Officiating Hockey Games This Season

On Monday night, the first class of the Okanagan Mainline referees' school was held in the Vernon Civic Arena under the guidance of Claude Small, veteran C.A.H.A. arbiter of many Allan and Memorial Cup campaigns.

The school is divided into three or four instructional sessions at which the rule book will be discussed and a better understanding of handling hockey games be taught to the fledgling ice officials. The school, which is under the jurisdiction of Charlie Fullford, league president, will be held in Kamloops on Saturdays and Kelowna on Sundays.

The major change in the officiating this year is that one referee and two linesmen will handle each game. This practice was adopted in the National Hockey League a few years ago and has proven very successful in calling off-sides and minor infractions of the rules that slip past the eyes of the referee-in-chief. This was the main point stressed by Mr. Small in covering the duties and method of officiating as outlined in the official rule book, issued by the C.A.H.A.

It was discussed and stressed that goal judges, once approved by the referees, should not be charged unless they are definitely wrong in their decisions.

Two hours were spent in covering these subjects and probably the most important point brought out was necessity in starting games on time. This would be a great help to both fans and players, as last year local games were not started until 8:45 or 9 p.m. when originally called for 8:30 o'clock.

Attending the classes were Harry Tyrell, Fred Janicki and Tommy Morrison, who carried out officiating duties last year. New potential referees taking instructions were Dick McCluskey, Ian Boyne, W. McNeil, M. Kerluk and J. Kuchur.

Auto Court Business Changes Ownership

One of the larger real estate transactions in Vernon recently was the sale of the Coldstream Auto Court on Kalamalka Lake. Harold Fox, who has developed this enterprise during the past three years, announced this week that he has disposed of the business to L. E. Cantell, of Vancouver. Mr. Cantell was for 19 years an industrial arts teacher for the Vancouver

School Board, and resigned to come to this city. Mr. and Mrs. Fox plan to continue residence in Vernon and will soon reside on Schubert Street East.

CLEVELAND—A record crowd of 80,067 saw the Cleveland Browns pro grid champions play the New York Yankees in 1947.

Appoint Commission For Kamloops Arena

KAMLOOPS—Appointment of the Exhibition Arena management commission was announced by Mayor W. J. Moffatt in City Council last week. The commission is composed of Alderman J. R. Bromley, Alderman J. E. Fitzwater, J. Reid, W. Reg. Waugh, Neil K. MacDonell, Charles Spencer and Arthur

J. Duck (representing the North Kamloops-Brocklehurst - Westside area). His Worship also will be a member of the commission.

The arena went into use Wednesday night when Kamloops Elks, the city's entry in Okanagan-Mainline Hockey League, began practices.

BOSTON — Fenway Park has a seating capacity of 34,474.

Fined On Game Act Charge

RADIO'S LATEST DEVELOPMENT

Broadcasting has made great advancement since your old set was new—cabinet styling, too, has gone modern—but the outstanding improvement in radio came when Westinghouse took a wartime radar development and applied it to tone reproduction.

Westinghouse
Polyphonic
Reproduction

You would like the voices of your favorite radio stars to sound the same in your home as they do in the studio. Westinghouse "Polyphonic" reproduction does just that.

But it goes a step farther, because now you can listen to both music and voice without distortion or discordant harshness... and with the correct balance of tone at all registers, for both radio and recordings.

Your nearest Westinghouse dealer will be glad to show you precisely the kind of a radio you want. Prices from \$29.95 to \$665.

For Safer Driving Extra Mileage
USE OUR COMPLETE WHEEL ALIGNMENT SERVICE

Did you know that if one of your wheels is as little as one-eighth inch out of line, your tire is dragged sideways approximately 85 feet in every mile? It is easy to see from this fact, how much unnecessary wear your tires receive if your wheels are out of line.

Faulty wheel alignment, like faulty brakes, also makes driving

hazardous. Play safe—drive in today and let us check your wheel alignment with our Bennett-Feragen Chassis Analyzer. In a matter of minutes we can give you accurate, visual proof of the exact alignment condition of your wheels. If correction is necessary, we can put your wheels in perfect alignment quickly and at a surprisingly low cost.

Junior Hockey Trophy Lost

NELSON The B.C. junior hockey championship trophy, the Moore Cup, is the object of an intense rivalry among the B.C. Amateur Hockey Association. The cup has been missing for several years.

NEW YORK — Almost every World Series game is a thriller yet there have been only seven 1-0 games in the history of the classic.

PITTSBURGH — Hans Wagner stole three bases in one game in the 1909 world series.

Cribbage League Will Start Play Here November 4

November 5 will be the starting date for the Vernon Cribbage League and play will continue in the Burns Hall every Friday night during the winter months. This was decided at a Captain's meeting held last week.

Fred Downer, president of the league, was chairman of the meeting and many things were discussed by the ten captains. Three teams have decided not to play in the league this year—Men's Club, Oddfellows and the New Vets.

The Men's Club, one of the original members of the league, has lost several of their most prominent players through ill health. These are: George Reed, W. W. Bailey, W. H. Dickinson and A. Pryor. Apparently other sporting activities have been the main factor in the New Vets retiring from the league.

A new team playing under the name of City Painters has joined the league and they will be captained by Bob Varley, last season captain of the Men's Club. With the addition of the new entry, the league will operate with ten teams.

A painted wooden shield will be provided to record permanently the highest individual hand, the highest team score along with the winning team. Last year's highest score was registered by the Scottish Daughters who counted 4307 points during the year's play. On a few occasions, a "28" individual hand was scored and this year it is hoped that special prizes will be awarded for highest scores.

Horace Reeves to Head Penticton Hoop League

PENTICTON — Horace Reeves was re-elected president of the Penticton Basketball Association at the annual meeting recently. Bert Tidball and Clarence Burch are new vice-presidents; Stan McPherson, secretary-treasurer; Les Wiseman, Al Kenyon, Chuck Blacklock, Walter Penny and H. D. Pritchard, executive.

Fighting, Hustling

(Continued from Page 9)

Vernon fans will have an opportunity of witnessing some first class hockey material this year. Dave McKay, formerly of the Chicago Black Hawks, has been signed by the local club. In coach Harney's opinion, McKay is one of the finest rearguards in the business. The big, rugged defenceman, whose services were bid for by many professional clubs, engineers plays like a centry man on the offensive and when he hits opposing forwards, they are hit and know it. Probably the most prominent feature about the valuable puck-chaser is that he loves hockey and no matter what league he plays in, whether it be intermediate, senior or professional, he puts everything he has into the game.

It took "one look" at Bill Neilson to convince coach Harney that, paired with McKay, the two veteran aces would form the best rearguard combination in the league.

The coach reported he had not decided on his skating lineup but is sure of a speedy, hustling team will take to the ice in the opening game. His squad has been practising for the past two weeks and is cut down to about 18 players.

Seeking the goaltending job are Jim McBride, 26, born in Brooks, Alta., played junior with southern Alberta teams and senior with the Truro Bearcats; and Ken Daulby, 20, played all of his hockey in Winnipeg.

On defence, Harney has Dave McKay, 28, formerly a National Hockey League player with the Chicago Black Hawks and then a star in the Coast leagues; Bill Neilson, 32, is assistant coach, born in Winnipeg and played minor hockey in that city before moving west to play for the Nelson Maple Leafs. He later went to the Coast where he played senior with Vancouver and Seattle. Following a season with the San Diego seniors, Bill returned to Vernon and has performed with the local squad for past three seasons. Reine Miller, 21, was born in Melville, Sask., commencing with minor clubs and finishing with the Prince Albert Black Hawks before coming to Vernon last year. He attended a training session with the Chicago Black Hawks. Stan Grisledale, 21, was born in Medicine Hat, Alta., came to Vernon in 1939 and played with the midgets, juveniles and juniors before graduating into senior company in 47-48.

The forward lines present the biggest headache for the coach. He has four lines working out and each trio is performing and shaping up well. On one line he has Lloyd Smith, 25, who hails from Swan River, Man., where he was born. Lloyd has the honor of being a member of the Portage Terriers when they won the Memorial Cup in 1942. After a couple of sessions with Flin Flon he headed for Trail and later ended up in Vernon colors. Bob Irvine, 24, a left winger who was born in Lethbridge, Alta., and who played minor and junior with his native town, then went into the services and played on service teams in Canada and overseas. Last year he left Nelson halfway through the season and was one of the sparkplugs of the local team. On right wing with Irvine and Smith is a newcomer to Vernon and young veteran of many senior teams, Johnny Hryciuk, 23, was born in Saskatoon, Sask., and played minor and junior hockey there before going into the services and performing in senior company on service teams. Last year, Hryciuk joined Nelson Maple Leafs in the Kootenay senior loop and starred in the semi-finals against the Trail Smoke Eaters.

Another line which is causing comment from the raucous is the trio centred by Les Smith, 25, who was born in Vancouver and came to Vernon to play minor and senior hockey before going into the services. In the services Les performed against many N.H.L. players, against whom he was discharged he came to Vernon but only played a few games last year. He is being flanked by Herbie Fisher, 19, a speedy Vernon junior ace who tried out with the Edmonton Canadians, farm team for the N.H.L. Black Hawks, and George Keryluk, 20, playing his second year in senior company; he came up from minor hockey in Vernon.

The remainder of the players trying of the team have been tried with different men to give them a chance to show what they are made of in various positions. A brief outline of each follows:

Stan Berry, 21, a left hand shot, who plays right wing in great fashion, was born in Vernon and played minor and junior hockey here. Stan first saw intermediate action in the Coy Cup playdowns two seasons ago when he was brought up from junior ranks. Last year he played on the first line for Vernon.

Johnny Loudon, 21, is being alternated between centre and left wing and doing a fine job at both positions. He played minor hockey in Vernon before heading for Nanaimo Clippers junior team. Last year he centred the first string on the Vernon team and was one of the leading scorers in the league.

Bill Simms, 23, a native of Vernon and a product of this city's minor hockey. Bill is playing his third year in intermediate company.

Nester Bilbicki, 20, a right winger who has been a member of Vernon teams in previous years, but has not played recently prior to this season.

Sarge Sammartino, 22, a product of Trail's minor hockey and born in that city. Performed against

Okanagan Ski Tourney Awarded to Summerland

SUMMERLAND—Summerland has been awarded the Okanagan ski zone championships. Dates are Friday, Saturday and Sunday, February 4, 5 and 6.

This was the important decision of the annual meeting of the Okanagan ski zone held in West Vancouver on Tuesday evening of last week with ski clubs of Oliver, Penticton, Summerland and Kelowna being represented. Vernon could not send a delegate.

Verne Ahrens, Kelowna ski enthusiast, was again selected as president of the ski zone, he is assistant to own secretary-treasurer. Don Agur, of Summerland, was again selected the technical director of the ski zone.

Decision to grant the ski zone championships to Summerland met with unanimous approval of the club's delegates, when they learned that the new Summerland ski jump is practically completed and has been built to specifications sufficient to hold championship jumping.

One of the important features of the ski zone meet here this year will be the probable participation of champion jumpers from the Coast who are expected to stop off here en route to the western Canada ski championships at the Red Mountain hill at Rossland, February 10 to 13.

Don Agur, who has been chiefly responsible for the construction of Summerland's new ski jump, informed the Tuesday zone session that two more good work parties would see the jump finished.

Other ski dates set for this winter include local meets at Oliver on January 16, Penticton on January 23, and Kelowna on January 30.

The annual Okanagan ski school is to be held at Rossland this year towards the end of December and skiers who qualify from this school are classified as trained ski instructors for the purpose of promoting the sport in their clubs. Chess Edwards, Rossland pro, will be in charge of instruction.

Following this school near the end of the year, the Vernon Silver Star downhill run will be held.

Reports from various Okanagan clubs showed that good progress is being made, Vernon planning a new layout at Lavington in preference to the facilities in use before. Oliver is organizing on a firmer basis and is building a tow this winter.

Kelowna delegates declared that they are improving their hill and plan a new tow for beginners this winter.

Besides the president and technical director, the new ski zone executive will consist of two members from each club, these to be appointed in time for the next zone session which will be held at Summerland on November 13.

Vernon with midget and juvenile minor hockey teams and in 1946-47 was a member of the Trail All Stars when they won the Coy Cup.

Wide Experience

(Continued from Page 9)

baseball training camp with the Seattle Rainiers. The summer of 1929 was probably the most colorful and outstanding year in the versatile athlete's career. It was then he travelled with the world famous House of David ball team, handling duties behind the plate.

The following winter Harney returned to the hockey wars and worked between the pipes for the Turner Valley Oilers in the Senior A loop in Alberta. The Coast next attracted the widely travelled sportsman and his next stop was Victoria where he organized and promoted baseball and aided Victoria to gain a franchise in the Western International League.

Harney's big break in hockey came in the 1944-45 season when he was taken to New York by the famous Lester Patrick as spare goalie for the New York Rangers in the National Hockey League. He spent that winter as playing coach for the New York Rovers, farm team for the Rangers.

Without a doubt Vernon has secured the services of a well experienced coach and the hockey fans of the city wish him success in his first year at the helm of Vernon hockey.

Vitamin D is essential to build strong bones and teeth and guard against rickets. Contrary to popular belief, rickets is widespread in Canada. Vitamin D is one of the best preventive medicines known. See that your child has an adequate supply every day, all year round.

Every B.C. City HAS A FLAVOR ALL ITS OWN

Didn't We Pass Through Here?

They all do. Pause at a busy intersection on broad Columbia Street. Watch them stream by—buses from Seattle, trucks from Valley points, jalopies and limousines from every province, every state. Back and forth endlessly, over the great bridge, past the flashing beacons, billboards, neon lights. Always bound for somewhere else.

Yet British Columbia owes a great debt to this city—the Fraser, this province's first industries were established and here today squat the mammoth mills and factories and canneries that keep her trading with the world. Quietly, steadily, this strong and stable city of New Westminster has continued to work that others might primp and play.

Let them pass—the weary, the indifferent, the pleasure-seekers. But you with a job to be done— with goods to make and ship and sell—come here to alert New Westminster. For this is a city that understands trade.

Now Westminster's "The Royal City" only major fresh water port on Canada's Pacific Coast. It possesses facilities for berthing 16 deep sea freighters. Has direct rail connections with Canadian National and Canadian Pacific railways and with the Great Northern and Great Eastern railways. International and provincial highways meet here. Estimated population 33,000, with 85% owning their own homes.

Not Higher, Lower Please

The present season is the time for payment of the annual tribute to municipal coffers, and reports from almost all cities and municipalities throughout the Okanagan show that near-record percentages of property tax levies are being collected.

In most centres, as in Vernon, the percentage of collections is down very slightly thus indicating that the general economic and employment conditions are prosperous. But as most municipal mill rates have been boosted substantially in the past three years, the actual amount of money paid is much higher. Next year will also see many new business and residential properties placed on the tax roll for the first time.

Expected to add further substantial sums to municipal revenues is the percentage of collection from the three percent sales tax, more euphuistically titled the Social Security and Municipal Aid Tax.

In these circumstances, it is difficult to understand proposals to add further to the tax levy by increasing the trades license fees. That Vernon's fees are "substantially lower" than in other valley centres is no valid reason for raising them. Our property taxes are now substantially higher.

A good many taxpayers of this city who are clamoring for a reduction in income payments might direct their energies closer home, and with profit. Vernon, with new revenues from the sales tax and new money from record building programs, should be giving serious thought to a reduction in land taxes, already at a record high and very close to the legal limit for ordinary expenditures.

Striving For Information

The Vernon Junior Chamber of Commerce, noting the growth of Community Chest drives in most Canadian cities, is engaged in a fact finding mission to determine if a similar annual campaign in this city would be desirable.

Considerable data has already been secured by the Chamber, but experience in community-wide drives of this type has largely come from major centres. No city in Western Canada as small as Vernon has used the program successfully over a period of years.

That is no reason, of course, why Vernon could not operate its own Community Chest were such a plan found feasible. The difficulty comes in ascertaining the desirability of such a program.

Certainly there are immediate advantages apparent to everyone. Despite all objections, funds are required for worthy causes and this money can come only from the public. A proper support of educational and charitable projects is a right duty of every citizen. It is only begging the question to claim that the government should support every charity.

In Vernon such appeals take varied forms. Sanctioned by the City Council are twelve tag days. These are supposed to be held no more often than once a month, but the obvious desirability of some months over others results often in several appeals within thirty days. Many and varied are the causes supported by direct solicitation of money grants, principally from business firms.

Under a proper Community Chest, a general drive for funds would be held by all member agencies, and no other campaigns would be allowed during the year, except for such agencies as Red Cross which do not combine anywhere throughout Canada. In Vancouver, the Chest has not altogether eliminated tag days, but at the present time only four are allowed.

Certain it is that a Community Chest could not function successfully in Vernon without a fairly general demand for its services, without the co-operation of a majority of promoters of drives, and without legislative backing from the City Council. The answers to these questions are puzzling the Junior Chamber members, and they are hopeful that a solution or at least an indication of public reaction will be forthcoming.

Outmoded Custom

Citizens who have quite some reason to complain each year of actual damage to property and real annoyance on the observance of Hallowe'en festivities, so-called, have several courses of action at their disposal.

Citizens can obtain police protection quite readily to help deal with the small minority of young toughs who have lost all interest in the "treat" aspects of Hallowe'en and are intent only on the "trick," usually a wanton and costly one.

They can insist that the authorities enforce provisions of the local curfew bylaw, by which youths under 17 years must be off the streets by 9:30 o'clock, and of other similar measures of law.

They can control their own youngsters, especially those of less tender years.

Finally, householders can make a contribution to kiddies' real fun and the Vernon Kinsmen Club's efforts to promote a jovial yet damage-less Hallowe'en by participating in the annual "Shell-Out."

Whatever its origins, Hallowe'en has lost all its significance. It is a harmless enough celebration for those of tender years, and few are the adults who begrudge the tickets and the treats to young folk who are home and in bed before the curfew hour. But the activities of too many teen aged youths in Vernon during Hallowe'en reflects little credit on youth as a whole. They should be well curbed, and this is just as good a year as any to institute restraints.

From the FILES of THE VERNON NEWS

Ten Years Ago—Thursday, October 27, 1938

Several hundred cars from the Lillooet, Lytton and Fraser Valley sections of the province have supplied apples to the Vancouver market recently, and have, for the time being, made this a "ghost market" for the Okanagan trade. This is the report made to The Vernon News by O. W. Hembling, member of the B.C. Fruit Board.—Announcement was made from Victoria that the provincial government Petroleum Board ordered price reductions in gasoline. The new price in Vernon and Lumby would have been 31 cents a gallon for standard, instead of 35 cents with a 2-cent premium for ethyl, effective Monday.—After a summer recess of inactivity, the Vernon Symphony Society held its general meeting of the 1938-39 season on Friday of last week.—Approximately 30 enthusiastic members attended the opening of the 1st B.C. Dragons Badminton Club on Tuesday evening in the Armory.—Robert W. Ley was the unanimous choice for the presidency of the Vernon Canadian Club at the annual meeting of that organization in the Board of Trade room Wednesday evening. Mr. Ley, a former secretary of the club, succeeds M. S. Middleton, who presided at the gathering, when reports of last year's activities were received.

Twenty Years Ago—Thursday, November 1, 1928

A census of Vernon is to be taken by Wrigley's Directories in the immediate future. This was the decision of a recent Council meeting, but was vigorously objected to by Alderman Spencer, who said that local men should obtain the work.—Electric light and power users in Vernon are enjoying benefit of new rates from the West Canadian Hydro Electric Power Company. New terms for light and power have been ratified by Coldstream Municipality residents.—Fire destroyed the large general store of A. D. Strouger and Son at Grindrod, Wednesday morning. Loss is estimated at \$5,000 and \$7,000, partially covered by insurance.—A new badminton club for Coldstream and Lavington residents is being proposed. Two or three courts may be erected in the new Vernon Fruit Union packinghouse.—Seriousness of the plight in which water users find themselves was impressed on Hon. F. P. Burden, minister of lands, and Comptroller J. C. MacDonald at a meeting of the Vernon Irrigation District.

Thirty Years Ago—Thursday, October 31, 1918

During the week the names of the following Okanagan men appeared on the casualty list: Killed in action, Milton Wilson, Rutland; wounded, A. L. MacDonald, Vernon; G. A. McCormick, Kelowna; R. T. Ives, Penticton; D. B. Fryer, Vernon.—The first firm in Vernon to have the privilege of earning an "honor list," for 75 percent of employees having subscribed to Victory Bonds, is P. Burns and Company. The manager hopes that before the weekend he will have 100 percent of the employees subscribe.—Dull weather and muddy roads have not tended to relieve the gloomy situation caused by local illness and deaths and the widespread sadness caused by disastrous loss of life aboard the "Princess Sofia."—Hugh Cox passed through the city Wednesday evening from George Anderson's ranch to the Kilborn ranch. With him was a big tractor, tank, five bottom plows, and a wagonload of discs. The outfit made some procession.

Forty Years Ago—Thursday, October 29, 1908

The election on Monday throughout the Dominion of Canada resulted in the government of Sir Wilfrid Laurier being returned by a majority which, though smaller than at the last session, will still be a large one, amounting probably to 48 or 50 seats. Election on Yale-Cariboo was deferred. Conservative candidate is Martin Burrell and Liberal Duncan Ross.—The new uniforms of the Okanagan Mounted Rifles are both neat and serviceable. The Corps should make a smart appearance at the next parade.—Sam Polson recently made some heavy purchases of real estate at Armstrong. Among buildings he acquired were the Armstrong Hotel, Daykin's store and the livery stables.—An interesting ceremony will take place next Sunday afternoon, when the cornerstone of the new Roman Catholic Church on Mara Avenue will be laid. The Very Rev. Father John Webb, a vicar general, will officiate and will deliver an address.

Fifty Years Ago—Thursday, October 27, 1898

Acetylene gas plants are being installed in the Methodist Church and in W. T. Shattford's store this week. Both machines are of the famous "Safety" type.—Word was brought into the city early in the week that a trapper named "Beaver Jack" was lost in the woods near the Shuswap Lake. Accompanied by his dog, he left to tend his traps and has not been seen since. A party of White Valley residents are organizing a search party.—The skating rink this season will be under new management. David Reed has secured the lease and intends to arrange a series of races and carnivals.—Two carloads of hops were shipped this week for the English market. Price received was 25 cents per pound.—A large quantity of hay in being shipped from this city to Kootenay markets.

Most Anything

By STUART FLEMING

Once a year, for no particular reason, "Most Anything" devotes its attention to the sport of fishing. Fishing is called a sport by the people who fish. The feeling of the fish are very seldom regarded.

If fish are capable of taking revenge, then they have taken it on me. If they are capable of appreciating the humor of anything, then they have laughed themselves silly every time I have ventured forth with rod and reel. As a matter of fact, when I go fishing you will find the sucker in the boat, not swimming behind it.

Not many weeks ago a friend of mine suggested that we go fishing. A comparative newcomer to the district, he had heard and listened to, and that's worse, believed, some of the stories that local fishermen are sometimes likely to tell. Having no desire to depreciate local legend, I agreed that it would be an excellent idea to go fishing—and promptly changed the subject. My friend, though, is a persistent sort of person and it was inevitable that one Thursday morning we set out to go fishing.

On arrival at the lake, we congratulated ourselves on the excellence of the day we had chosen. The air was warm, the lake only mildly ruffled and the sky an almost cloudless azure blue. Well, actually, it was just plain, ordinary blue but it isn't fitting to be too prosaic about these things in the presence of strangers to the country, especially when they come from Ontario. If I had of used my head I would have realized it was too good to be true and we would have turned around immediately and gone home.

After a brief, but victorious, struggle with the motor of our rented boat, we set course in a somewhat southerly direction and sat back to admire the scenery. The best fishing ground, so we were told, was about four miles away and it never occurred to us that there was no rule that said we shouldn't fish while we were in the process of getting there. Even if the thought had occurred to me I would have cast it aside as probably being much too logical for acceptance in the company of a genuine fisherman.

The morning fulfilled all its early promise for approximately forty-five minutes, just long enough to get out of sight of our starting off point. My companion and I suddenly became aware that the hitherto gentle and friendly rippling which had been so curiously lapping at the side of our boat were taking on an altogether threatening and vicious attitude. The boat began to lurch in a most alarming fashion and every now and then showed a distressing tendency to bury either its bow or its stern in giant caverns which were opening in the face of the lake.

This seemed to call for rearmament of a higher order than I generally have at my command. My friend, bless his heart, was not at all disturbed. He was under the impression that I was used to this kind of adventure. It wouldn't have been so bad, really, except that in direct of my premonitions, was about to be fulfilled. The sky was no longer blue. It was, indeed, a dirty looking black. Suddenly, out of the west, from the general direction of Vancouver, there arrived one of the most thoroughly wet

rains it has ever been my misfortune to encounter.

I assured my companion that this was the Okanagan. That it was sure to be no more than a passing shower. That all would soon be well again and there was no need to run for shelter.

Sometime later we relaunched our boat, after having spent half an hour or so under the inadequate shelter of the largest tree the shore could boast, and proceeded towards the place where fish could be found. My companion and I were not on speaking terms.

The rain, which had stopped, started again with, if anything, increased violence. There was no point in trying to take shelter this time. We couldn't have been wetter if we had been swimming. After a short interlude of untangling the fishing tackle from the floorboards of the boat in which it had somehow managed to get almost inextricably entangled, the fishing commenced. It may be that copper colored spoons are better than silver colored ones, or perhaps red pieces of glass suspended in the centre of a lot of used hardware are a lot more unenticing to most fish than some people are inclined to think, but whatever the reason was, we didn't have the right combination. So far as we were able to judge not even one fish bothered to so much as come up and snicker at our lures. In the meantime a party of fishermen came sailing by in a large cabin-enclosed yacht and cheerfully waved a couple of dead fish at us. Each of these fish, I would estimate, must have weighed about 35 pounds.

I don't know how long we fished. Life had become completely unred and my senses entirely numbed by the time our boat finally arrived at the point from which we had started.

The net result of our day of sport was one badly rusted camera and two head colds.

Fishing is some sport—for the fish.

A Soldier's Request

Considerable doubt was expressed during the war as to whether all United States soldiers knew what they were fighting for. The late Robert Johnstone of Dowlington, Pa., who died in the Philippines while a member of the army, had a good answer to that question, and he did something about it. He willed that his \$10,000 soldier insurance should be used, after the war was over, to educate in the United States one former Japanese enemy.

Robert Ninshyama, 25-year-old former suicide pilot of the Japanese Air Force, has arrived in the United States to study at Lafayette College, Easton, Pa., on the scholarship provided in Johnstone's will. He will take a liberal arts course, and then return to his homeland to pass on to his countrymen the knowledge he has gained not only in his course but in his way of life. A way where the welfare of the individual is paramount. Robert Johnstone, dying in an alien land, gave incontrovertible proof that he knew what he had been fighting for.

CANADA FROM COAST TO COAST

Gateway of old Fort Garry... original Fort built in 1822, rebuilt 1835. The North Gate is all that remains of the historic fort.

Here are the basic ingredients of the romance of the West. This lusty, beautiful, pioneer-spirited community, famed to the world's bread basket is the city through which poured the thousands of intrepid land seekers, fanning out to break the fertile soil, build for Canada the multi-million acre grain and cattle empire that is the Prairies today.

In the city, proper, are the most spacious railway yards in the world under one system. It is one of the greatest grain centres in the world. Highly civilized architecture distinguishes its mammoth department stores and its gracious spired churches. It is the aim of Winnipeg's citizens to outshine its present status in all arts by which cities become great.

A Canadian Rye Whisky of proven worth, Harwood's is characterized by a superbly balanced flavour of palatable delicacy. Yes, the knowing call, first, for Harwood's.

Bishop F. P. Clark Will Induct Anglican Rector

—Important Weekend in All Saints' Parish

Right Rev. Frederick P. Clark, Bishop of Kootenay, will make his second official visit to Vernon on Sunday, October 31, since his consecration last summer. He succeeds Most Rev. W. R. Adams, D.D., who resigned the bishopric of Kootenay to take charge of the Diocese of Yukon.

Bishop Clark will officiate at the service of institution and induction at All Saints' Church next Sunday evening, when Rev. L. A. C. Smith will be formally installed as Rector of All Saints' Parish. Taking part in the service, besides Bishop Clark and Mr. Smith, will be Church Wardens L. R. H. Nash and P. S. Sterling, who on behalf of the congregation, will present Mr. Smith with the keys of the Church, symbolic of his installation as incumbent of the Parish. The preacher will be the Bishop.

The last service of induction in Vernon was held on January 1, 1922, when the late Bishop A. J. Doull installed Canon H. C. B. Gibson as rector of All Saints' Church. Canon Gibson is now at Agassiz.

On Monday, Bishop Clark will administer the rite of Confirmation to adult and junior classes at a service in the evening, which the congregation and others are invited to attend, and which will incorporate the usual Patronal Festival Service for All Saints' Day, which is Monday, November 1.

The Patronal Festival commences with the celebration of Holy Communion at 8 a.m. on Sunday. Bishop Clark will address Vernon Rotary Club.

Special Series of Sermons Open at United Church Here

Rev. Gerald W. Payne, minister, Vernon United Church, is planning a series of two or three sermons, developing the relation between Communism and other forces and the Christian faith.

In the opening chapter last Sunday morning, Mr. Payne said the world faces a struggle for power on a vast scale, such as Communism. The only alternative is the contribution of the Church and the Christian faith, he said.

Church Services Inaugurated at Okanagan Landing

OKANAGAN LANDING, Oct. 25. —The first church service at the "Landing" for many years was held last Sunday at 3 p.m., with 30 people in attendance.

The service was conducted jointly by Rev. L. A. C. Smith, of All Saints' Anglican Church, Vernon, and Rev. Gerald W. Payne, Vernon United Church; the former conducting the service, and the latter preaching the sermon. Mrs. Murray Stephenson played the piano. In future, services will be held on the second and fourth Sundays of each month, Mr. Smith conducting the second Sunday and Mr. Payne the fourth.

Coast Cleric Visits Church at Westwold

WESTWOLD, Oct. 22—A Thanksgiving service on Monday afternoon, October 18, marked the 50th anniversary of the opening of St. Luke's Parish Church in Westwold.

Many pioneer residents were present and the vicar, Rev. C. W. Kirksey, read greetings from a number of others who, because of distance or other circumstances, were unable to attend. A feature of the service was the singing of the "Te Deum" by David De Wolf and Mrs. E. Lenzen of Vernon. Rev. Norman Larmouth, vicar of St. John's, Shaughnessy, Vancouver, stressed the heritage and power of the church and the need for presenting a united Christian front.

50th Anniversary for St. Luke's Church at Westwold

WESTWOLD, Oct. 22.—Fifty years is a full lifetime for many men, yet the collective memories of the pioneers who sat down to the Golden Jubilee banquet of St. Luke's Parish Church in the Westwold Hall on Monday, October 18, reached well beyond 50 years. For some it meant their full life, to others merely 50 years in a span of 60, 70, or even 80 years.

In the life of the church it meant half a century of service to those who, in joy and sorrow, had entered her doors. Born in the faith and zeal of a handful of devout and hardy pioneers, the Church has given comfort, counsel and fellowship for half a hundred years to the sons and sons' sons of those who laid the foundation of this community.

At the centre of the guest table sat two grand old ladies of "Grande Prairie," as they still love to call this community. To them it is Grande Prairie; Westwold is a poor semblance of a name with which they are proud to be associated. Mrs. R. M. Clementson and Mrs. P. C. Cotton occupied that honored place.

On either side of these two gracious pioneers sat Mayor Moffat of Kamloops and Mrs. Moffat; Rev. N. D. B. Larmouth, rector of St. John's Church, Shaughnessy, Vancouver; Rev. C. W. Kirksey of St. Luke's Church, Westwold; Dr. J. S. Burris of Kamloops; Mrs. T. Elliott, president of the Women's Auxiliary; Mrs. R. Jones, president of the Women's Institute; Alex. Pringle; Rupert Duck; H. E. Talbot and Mrs. Talbot; Mrs. H. Watson; Mrs. M. Manson; Capt. H. Willes of Kamloops; Mrs. Smith of Monte Creek, and Percy Clementson.

Rev. C. W. Kirksey proposed the toast to the King, and an impromptu toast to "The Ladies" expressing his gratitude for the grand job they had done in providing such a splendid banquet. He also brought greetings from Rt. Rev. F. P. Clark, D.D., Bishop of Kootenay, who was a recent visitor to the parish.

The appropriately decorated cake was cut by Mrs. Clementson and Mrs. Cotton.

Mr. Kirksey then welcomed Mr. and Mrs. Moffat, the mayor of Kamloops and his wife. Mayor Moffat, in proposing the toast to the pioneers, paid further tribute to Mrs. Clementson whom he recalled, was the first organist of St. Luke's Church of "Grande Prairie." He also welcomed those who, though not pioneers, are now playing an increasingly active part in the affairs of the community.

Mr. Kirksey then recalled that the church being the Church of St. Luke and that St. Luke's Day (October 18) that St. Luke, the physician, was represented by Dr. J. S. Burris, of Kamloops. Dr. Burris, in reply, paid high tribute to the work of the church.

Highlighting an evening that will long be a vivid memory in the minds of all those present, Rev. N. D. B. Larmouth proposed the toast to the church. From a well-furnished mind, covering many years of "paying off mortgages and building churches," in various cities across Canada, the speaker gave his audience a challenging address, well spiced with humor and a dash of romance. Remarks such as "Thank God for the church," "Thank why I'm proud of the church," and "It's great fun being a parson," gave to all a deep respect for the work the church has done, and in doing, the world over, for all mankind. He quoted

"YES, SIR... MAN AND BOY FOR SIXTY-ODD WINTERS!"

In countless Canadian households the wearing of Stanfield's Underwear has come to be something of a tradition, dating back forty, fifty or sixty years.

It's not surprising when you consider that Stanfield's has been known for more than sixty years as the underwear that always fits smoothly and comfortably... is always soft, warm and durable... and never shrinks. Ask for Stanfield's in your favourite type-combinations or shirts and shorts, in a wide range of styles and weights.

Heavy Agenda For Clergy at Deanery Meet

Anglican clergy from Vernon to Revelstoke and across to Chase, will assemble in Vernon next Tuesday, November 2, for the annual North Okanagan Deanery meetings in All Saints' Church. The series of meetings, services and social functions will open on Tuesday morning, continuing until Wednesday afternoon, and will include a conference of the Archdeaconry from the entire Okanagan Valley.

On Tuesday evening at 8 o'clock, there will be a church service open to congregational members and anyone who wishes to attend, when the preacher will be Rev. T. R. Lancaster, of Revelstoke. Rev. A. E. Longfellow, newly appointed vicar of Enderby, will conduct the service.

ASTHMA SUFFERERS!
I GOT EASE FROM MY WHEEZE IN 10 SWIFT MINUTES

"I was surprised," writes B.M., "I've tried many things, so I took one tablet of Ephazone with little faith—but in less than 10 minutes I was breathing clear."

CHRONIC BRONCHITIS
It's only when fellow sufferers have actually got fast relief from that wheezing, and gasping of Asthma attacks, and that choking bronchial cough—that you have faith in a remedy. **EPHAZONE** has been proven—because of its reputation even in the damper English climate. Try **EPHAZONE** from your druggist—\$1.50, \$2.50, and \$7.50.

PILES

Every day we receive letters from former sufferers who had given up hope, grateful for the new Piltone treatment, many after years of misery. Have you ever thought how modern science has advanced? Piltone is a result of that advancement. Piltone Pile Treatment goes direct to the trouble source (internal). The taste of this liquid may be disagreeable, but results are what you want. You get results with the first bottle of Piltone or your money refunded. At all modern druggists.

Emmanuel Baptists Gather For Inspiring Supper Meet

An inspiring gathering of members and friends of Emmanuel Regular Baptist Church met on Tuesday, October 19, at a supper in the church auditorium. The ladies of the congregation had taken charge of the preparations assisted by younger members.

While preparations were being made for the after service, the assembly listened to recordings of well-known hymns sung by great artists.

The meeting was of an informal nature, presided over by the pastor, Rev. E. V. Apps, who is just terminating his sixth year "in the field." A newcomer, E. C. Taylor, of Victoria, spoke briefly on "An Outsider Looks In." The speaker of the evening was Dr. J. H. Kope, of Enderby, who took for his topic Thessalonians, 1: verses 3-4.

As a demonstration of the truths which Dr. Kope outlined, A. East, St. church historian, read a paper which he has compiled from the church records, during its 21 years of operation. "Through thick and thin, faithful people have carried on, some taking over where others were obliged to leave off," said Mr. East. At this date the church has the largest membership with the biggest consistent congregation and Sunday School of its history; a flourishing Young People's group and children's department, as well as a splendid Women's Missionary Society.

Songs, Duets
During the evening Mrs. Apps was presented with a corsage. Miss Wilma Hurlburt sang a solo and Mrs. Lois Wilson and Mrs. Apps were obliged to leave off," said Mr. East. At this date the church has the largest membership with the biggest consistent congregation and Sunday School of its history; a flourishing Young People's group and children's department, as well as a splendid Women's Missionary Society.

Women's Group of United Church Holds Annual Meeting

Members of the Women's Auxiliary of St. Andrew's United Church attending the annual donation tea held in Burn. Hall on Tuesday evening, October 23.

Admission for the occasion was by donation of articles made the year for sale at the forthcoming annual bazaar and the assortment donated of practical and dainty needlework was large.

Under the convener's leadership, a splendid part of the evening's entertainment was a contest by members of the Friendship Circle, the winners being Mrs. McCann, Mrs. Hopkins.

Two piano solos by Mrs. J. L. Lemski, under direction of the piano quiz, was contested by the first line of a song, each contestant was required to sing a complete line in turn, announced from the contest. Winner in this quiz was Mrs. Macdonald.

"Life With Freddie" a humorous monologue by Mrs. M. Rose, was given with enthusiasm by the audience.

Probably the highlight of the evening was a pantomime by Mrs. Ben Jackson, president, and members of the Hilda. This group of ladies, in costume, and representing W.A. gatherings of the United Church, were found in discussion of a "trial" of the meeting was in charge.

The meeting was in charge, president, Mrs. Leo Smith, owing to the presence of "gossips," Mrs. H. Galt, Mrs. McCubbin, had much to do in maintaining any semblance of order. A violent storming in the person of Mrs. G. P. center, who persistently refused to donate more than 50 cents.

Heretofore, Bishops of Kootenay have all resided in V. Rt. Rev. Frederick P. Clark now holds this office, is a son of Nelson, and will be a visitor next weekend. He will speak at the regular Club luncheon next Monday.

He is the youngest bishop of the Church of England in Canada, was also the youngest bishop to attend the Lambeth Conference in 1932. He was ordained in St. Mark's Chapel of his university on June 14, 1932, to a vicar in Westmount, in the diocese of Montreal, and obtained in Christ Church, Montreal June 11, 1933.

In 1934 he began a six-year association in the Diocese of Kootenay. In 1941 Bishop Clark went to the west coast, becoming of Holy Trinity Church, Vancouver. During this period he shared in the wider field of Church's work as a member of the Provincial Synod of British Columbia and its executive committee and of the General Synod of the Anglican Church of Canada, and became a member of the College of Bishops, and Executive of the Anglican Theological College of B.C., and Exe. Chaplain to the Bishop of Westminster.

He became pastor of St. Paul's Cathedral in Nelson and the Kootenay in 1946, and assumed the diocese when Archbishop Adams, of Vernon, resigned his bishopric to take over the V. C. The new bishop is married and has three children.

First Bishop of Kootenay was Rt. Rev. A. J. Douthett, who continues to reside in non.

58 Million Bushels Wheat 1948 Prairie Crop Yield

The total wheat crop in the Prairie Provinces will be in excess of 58 million bushels, according to the second official estimate of the Dominion Bureau of Statistics, issued October 21. The Dominion Bureau of Statistics estimates that the 1948 crop of wheat in the Prairie Provinces will be in excess of 58 million bushels, compared with 51,000,000 bushels in 1947 and 47,000,000 bushels in 1946. The average yield per acre for the 1948 crop is estimated at 15.5 bushels, compared with 14.5 bushels in 1947 and 13.5 bushels in 1946. The total area harvested for wheat in the Prairie Provinces in 1948 is estimated at 3,750,000 acres, compared with 3,500,000 acres in 1947 and 3,400,000 acres in 1946.

People Welcomed By Rattlesnake On Return Home

SUMMERLAND—On Sunday, October 10, the Raham family returned from church to their home on the bank of Trout Creek, to find a rattlesnake in their yard. It was the first one any of them had seen alive, and it was some moments before they were quite sure of its identity.

However, the peculiar buzzing soon convinced them. Austin, aged 14 years, ran into the house for the rifle and soon put an end to the intruder.

Famous Mascot Demobilized

"Flight Sergeant Lewis," famous Royal Air Force goat, was demobilized recently with full ceremony. Here he is led on his final parade at Hulton Camp, Buckinghamshire, England, where he was mascot to thousands of airmen and apprentices. R.A.F. officials expect this retirement to stick for when Lewis was demobilized a few months ago for the first time he refused to leave camp and chewed up his demobilization papers. This time he goes to the Mascot Club in London.

Two By-Elections in B.C. on November 29

By-elections will be held November 29 to name members of the Provincial Legislature in the Rossland-Trail and South Okanagan ridings. It has been announced by acting premier Herbert Anscombe. Nomination day in both cases will be November 22.

Suspect Arson In School Fires At South Cities

PENTICTON.—What may be a deliberate attempt by arsonists to set fires in Valley schools is being investigated by B.C. Police in Penticton and Kelowna.

Early Sunday morning of last week, a blaze was discovered at the Okanagan Falls school. A few hours later the school house at Mission Creek, near Kelowna, was completely destroyed by fire.

Relation of Agriculture to Health Value of Food Is Debated at Kelowna Meet

On Friday, October 8, a conference was held in the B.C. Tree Fruits board rooms, Kelowna, on the relation of agriculture to the health value of our foods. This conference, held under the sponsorship of the Okanagan Agricultural Club, was attended by 26 officials of the Dominion Department of Agriculture, the B.C. Department of Agriculture and the B.C. Department of Health and Welfare.

Addressed were delivered by five of the agronomists and health officials present. Miss R. M. Y. Love, consultant on nutrition, B.C. Department of Health and Welfare, spoke on "the status of nutrient deficiencies in Canada." She pointed out vitamin and mineral deficiencies occur in people's diets far more extensively than is commonly realized.

Short Course In Agriculture Set Up By University

It was announced last week that an eight-week short course for rural young people will be held at the Youth Training Centre, near the University of British Columbia, commencing on January 10. Since registration is limited, authorities desire enrolment of only those who will take full part in the activities of the school and who will be willing to carry back to their communities the knowledge and information gained.

Applicants for the school will be selected. It is hoped to choose at least one applicant from each district.

Revelstoke National Park Featured in London Weekly

REVELSTOKE.—Canada's Weekly, published in London, England, has been featuring one of Canada's National Parks, each week. The last issue contains the following article on Mount Revelstoke National Park:

In 1914 some 100 square miles or so were set aside on the alpine plateau forming the summit of Mt. Revelstoke as a National Park. The region lies southwest of the Glacier National Park and is bounded on the south by the main line of the Canadian Pacific Railway and the Illecillewaet River, while to the west lies the Trans-Canada Highway and the Columbia River.

Its greeting may well be "the top of the world to you," as its general elevation on the western slope of the Selkirk Mountains is 6,000 feet. This broad undulating plateau consists largely of alpine meadows covered with groves of fir and spruce and dotted with small lakes. It is an all-season playground and was one of the first areas in Canada where ski mountaineering was popularized.

From the Lookout Station and shelter at the summit of the mountain the broad panoramas which extend in all directions are truly awe-inspiring. To the north looms the Chacabucum Range, at the crest of which lies a wide snowfield cut up into many sections by separating rock ridges. Across the Columbia River to the southwest stands triple-peaked Mount Begbie dominating the surrounding peaks of the Monashee Range, and below in the shadow of the mountain is the town of Revelstoke.

To the west is Eagle Pass through which pass the Trans-Canada Highway and the Canadian Pacific Railway. Near the summit of Mount Revelstoke is a natural phenomenon known as the Ice Box, a great cleft in the rock strata 100 feet long and 20 feet wide, containing large quantities of ice and snow. Even in midsummer it holds nearly 20 feet of snow.

The park is reached from the town of Revelstoke by a spectacular road which ascends the southern slopes of the mountain by easy grades and switchbacks. It passes through virgin stands of cedar, spruce, fir and hemlock, and in a distance of 18 miles rises more than 4,000 feet to an elevation of 6,350 feet. In places, the road skirts the edge of the mountain, and lookout points along the way provide magnificent vistas of the broad Columbia Valley and the surrounding mountain ranges.

Trail Riding and Hiking

It is ideal country for hiking. A four-mile hike takes the visitor to Lakes Eva and Miller, crystal pools of pale green water which reflect the surrounding trees, rocks and mountains. The trail skirts the Columbia Valley, and passes through alpine meadows literally carpeted with wild flowers. Both lakes are well stocked with cutthroat trout, and at Lake Eva a shelter, equipped with camp stove, is available to hikers and fishermen. Jade Lake, an emerald pool in a rugged mountain setting, is also accessible by trail.

An ever-increasing number of visitors to these park areas take up trail riding, and Mount Revelstoke Park is no exception. The heart of the mountains has a lure which is almost irresistible. Trails unseen from the railway or highway wind through fragrant forests carpeted with pine and fir needles, along narrow gorges and canyons, around the rim of flower-bedecked valleys, to placid lakes teeming with fish, into the territory of the blue sheep and the mountain goat, past glittering peaks, melting glaciers, foaming waterfalls and mighty waterfalls. Among the charms of trail riding, and the game it gives of intimacy with nature and the abiding peace of the primeval wilderness.

The park has been the locale of many international ski-jumping

Restrict Sale Of Firecrackers At Penticton

PENTICTON.—Penticton's Council is anxious enough to control vandalism resulting from the unlawful use of firecrackers, but is not of one mind in agreeing how it should be done.

On the urgent representations of Fire Chief H. M. Foreman, whose department recently fought a blaze in a photographic studio caused through the tossing of a firecracker into the letter slot, the Council gave careful consideration to the matter from every angle.

Several instances of youngsters throwing firecrackers near pedestrians and in the path of automobiles on main thoroughfares, have been noted during the past few days. This weekend four juveniles and one adult will appear in court charged with infractions of the present city bylaw covering firecrackers.

Emerging from their deliberations was an amendment to the covering bylaw restricting the sale of the noisy playthings to persons 18 years of age or older.

If Alderman S. R. Hawkins had had his way, the age limit would have been set at 21 years.

Penticton's bylaw at the present time merely forbids the setting off of firecrackers in a public place. "And we're not even able to enforce that much," complained Alderman Hawkins, describing a carload of youths driving down Main Street throwing "cannon" out of the car window.

Vancouver's bylaw was studied. This measure forbids the use of firecrackers without a special permit from the fire chief. But both Aldermen J. W. Johnson and J. H. Almaek thought this was going a bit too far for Penticton.

Reactor can claim one bird out of every 10 on earth.

Dr. Chase's Ointment

"Do you love me more than anything else in the whole wide world?"

"Why sure, Darling! Except of course, there's honey-golden..."
"Honey Golden, oh? I knew it—a blonde I'm going home to mother!"
"They wait a minute! I mean honey-golden, mally-rich, oh-so-wonderful Post's Grape-Nuts Flakes!"
"Oh, that's different!"
"Sure they're different! That famous Grape-Nuts flavor is different from any other cereal flavor in the world."

"I know, I know—because they're made from two grains instead of one!"
"Sure—and loaded with carbohydrates—and minerals and other food essentials!"
"You win. Go ahead and have another bowlful—and I think I'll join you!"

When the flowers in the window or porch boxes are finished blooming, remove the stalks from the dirt. It looks far better to have an empty box than to have all the ugly remnants from previous summer sticking up in the air.

Mrs. Ben Baker Honored on Her 82nd Birthday

Mrs. Ben Baker, of Vernon, who celebrated her 82nd birthday on October 21, was honored by some 30 fellow-members of the Women's Auxiliary to the Canadian Legion at the home of Mrs. Harry Knight, 32nd Avenue, last Thursday evening.

Mrs. W. H. Dickenson, past president of the W.A., presented Mrs. Baker with a corsage, and a dressing gown and slippers, as a token of congratulation and good wishes from the organization. Refreshments, including a large birthday cake, were served by Mrs. Knight, assisted by W.A. members.

Nylon manufacturers say that women just think nylon stockings are colder than silk hosiery. Tests have shown no difference between comparable samples of silk and nylon.

CUT FOOD COSTS... RAISE FOOD VALUE

with "MAGIC" EGG ROLL

2 c. flour
4 tsp. salt
4 lbs. shortening
1 egg
1 c. milk
5 hard-boiled eggs
4 lbs. milk
2 tsp. lemon juice
3 tsp. chopped onion
2 lbs. chopped parsley
2 lbs. chopped green pepper
1 tsp. dry mustard
Salt, pepper, paprika

Sift together first 3 ingredients. Cut in shortening. Beat egg in measuring cup; add milk to make 1 1/2 cups; add to first mixture. Roll out 1/4 inch thick, on floured board. Chop hard-boiled eggs, mix with remaining ingredients, spread on dough. Roll up like jelly roll and bake in hot oven (425° F.) 30 minutes. Serve with cheese sauce.

Musical Festival Scholarship Winners Coming

Coming to Vernon on Tuesday evening, November 2, are Joan Milloy, pianist, of Victoria, and Malcolm Tait, cellist, of Vancouver, who will be heard in joint recital at a concert, sponsored by Vernon branch, Registered Music Teachers' Association, in the High School library.

The artists are both young, Malcolm Tait being 17. They were chosen for the tour through an eliminating process by a board of examiners.

Miss Milloy has many successes to her credit. Platform experience came with a number of appearances in Musical Arts concerts, and later as guest soloist with the Arion Club, the first of which was at the age of 14. As a student at the Banff School of Fine Arts, Miss Milloy was awarded the annual scholarship by Max Pirani in 1947. Her dynamic range is said by a musical critic to be "astounding; her phrasing clean, and she has a fine maturity of tone."

Chamber Music

Tait began studying at the age of seven, and within a year he had joined the family ensemble in their favorite pastime of chamber music. Shortly afterwards he entered the field of solo playing and after many successful appearances won the open cello competition in the B.C. Musical Festival in 1947. In the final concert of the Vancouver Junior Symphony Orchestra last season, Tait was chosen as guest soloist. His work was said by music critics to be "agreeable cello tone and admirable technique."

The program is arranged in four groups, opening with Tait on the cello. The first piano solo is Beethoven's Sonata in C minor. The remainder of the recital contains favorite numbers to all music lovers.

Joan Milloy
Pianist, of Victoria, to be heard in Vernon November 2 in the Young Artist Recital.

Hallowe'en Motif For B. and P.W. Dinner Meeting

Miss Anna Fulton was guest speaker at the October meeting of Vernon Business and Professional Women's Club held in the Canadian Legion Centre canteen on Tuesday evening, October 19. The speaker has just returned from a year in the British Isles, during which time she also visited France, and gave her listeners a vivid picture of the beauty of England, which she found to be rich in tradition and culture; as well as her impressions of the socialist regime and many other aspects of life overseas. Mrs. John Laidman moved a vote of thanks on behalf of the 40 members and guests who attended.

Mrs. F. C. Tulloch presided. The dinner tables were decorated with the Hallowe'en motif of orange and black. Flowers were michaelmas daisies and Rowan berries. Guests included Miss Hope Hewitt, Miss Jean Bennet, Miss Lee Jahnki and Miss Laurine Boucher.

Mrs. Margaret Jones and Miss Evelyn Cools were initiated as new members.

Miss Hilda Both, treasurer, reported that net returns from the variety concert staged two weeks ago were \$210.70. This clears the purchase of the community grand piano. Mrs. Tulloch, in reviewing this activity, said that the project of purchasing the instrument was first suggested in March, 1945.

As Miss L. Mess had tendered her resignation as chairman of International Relations, Miss Meta McEwen has been named her successor.

Mrs. D. D. Harris convenes a committee which will arrange a token of good wishes for Christmas to an "adopted" B. and P.W. Club in Glasgow, Scotland.

As National Night for the club falls in November, the regular meeting for next month will be held at the Sutherland Arms, Okanagan Landing.

Date Change for Legion W.A. First Winter Card Party

Owing to a change in plans, the Women's Auxiliary to the Canadian Legion will commence its winter series of card parties on Wednesday evening, November 3; not on November 2, as previously stated. This change is only temporary, and the series will continue the first Tuesday evening in each month, in the Legion Centre, with proceeds going to W.A. activities.

The first local society of the Red Cross in the United States was organized at a Lutheran church in Danville, N.Y., in 1861.

Large Crowd of Patrons At O.E.S. Bazaar, Tea

Malcolm Tait
Youthful Vancouver cellist, to appear in recital November 2 with Joan Milloy. Performance will be in Vernon High School Library.

Cathedral Chapel Ceremony for Vernon Bride

At quiet afternoon rites in the Chapel of Christ Church Cathedral, Vancouver, at 2:30 o'clock, Saturday, October 16, Rev. Stanley Higgs heard marriage vows exchanged between Helen May Davies, R.N., and Arthur Allen Jones. The bride is daughter of Mr. and Mrs. Gomer Davies of Vernon. Her groom is son of Mrs. C. H. Munro, of Vancouver, and the late C. A. Jones.

Mr. Davies went to Vancouver for the marriage of his daughter, and gave her away. She wore a beige Gabardine suit accented with wine colored accessories, and carried a spray of mauve orchids. Mrs. George Nuyens, of Vernon, was her sister's only attendant, and chose a gabardine suit in Burgundy shade, which she wore with navy blue accessories and a white gardenia corsage.

Herbert Jones, of Vancouver, was his brother's groomsmen.

After the ceremony, a reception was held at the home of the bridegroom's mother and stepfather, Mr. and Mrs. C. A. Munro, at "The Mill," 1155 Clements, Capilano, when Ivan Cruickshanks proposed the toast to the bride.

Receiving with the principals were the bride's mother, who wore an afternoon ensemble of powder blue, accented by a corsage of pink roses, and a hat in a darker, blending shade of blue. The groom's mother chose an afternoon dress of grey with matching hat and gardenia corsage.

A three-tiered wedding cake centered the bride's table, which was covered with a drawn-thread, heirloom cloth, hand made many years ago in Scotland. The cake was flanked by silver vases of rosebuds and burning ivory tapers in silver sconces.

The couple will make their home in Vancouver. The bride was a stewardess with Trans-Canada Airlines for three years, and since last July has been making regular trans-Atlantic flights on the North Star planes operated by T.C.A.

First of Season's Dances at Kedleston

KEDLESTON, Oct. 25.—A lively community gathering held away last week when the first of the season's dances was held at the school house.

It is reported that the district health nurse made an inspection of the school children at the school on Thursday of last week.

"The social welfare people here were pleased to learn that Miss Isabel Burris was uninjured in a recent car accident on the Kamloops Road."

Most public school teachers in Western Europe are averaging only \$60 to \$80 a month and must do outside work to provide the barest of necessitation.

This is the word brought back by Minton L. Smith, educational director of CAIE, who is launching a campaign to have 100,000 CAIE packages sent to students and teachers abroad this year.

"Many students," he added "are living on one meagre meal a day, but they are refusing to give up their education despite almost insurmountable hardships."

A monogram originally consisted of a single letter, and later became a design or mark consisting of two or more letters intertwined.

Eager Buyers Raid Stalls at Saturday Sale

The doors of Burns Hall were stormed Saturday afternoon by a raid of eager buyers at the Rummage Sale, sponsored by the Young Women's Guild, Knox Presbyterian Church.

There were lace dresses and lamp shades; silver slippers and men's suits, and a wide variety of miscellaneous and useful articles in good condition, which were cleared off the stalls in an hour or so. True, they had all seen good service, but there were many weeks of good wear in the majority of garments. Many of the customers bought clothing to send to Europe for winter use.

Guild members donated and collected articles from their own circle of friends. Net proceeds were \$146 which will be used for Knox Church requirements.

Mrs. C. Gordon was general convener, with Mrs. A. Walker in charge of the tea. Senior members of the congregation assisted in the project.

If the edges of the leaves of the book are soiled, hold them tightly together and paint with a colorful water paint, bright blue or bright green or red. It will give the book a gay appearance that will brighten up the shelves immensely after their drab coloring.

O.K. Landing Working Hard for New Hospital Here

OKANAGAN LANDING, Oct. 25.—The Hospital Auxiliary held a meeting on Friday afternoon, with 12 members present. A larger attendance is hoped for, as the ladies are busy sewing and knitting for the forthcoming bazaar.

Mrs. W. Merrifield returned home last Thursday after a month spent in Creston, B.C., where she was summoned owing to the illness of her mother, Mrs. J. Adams, who later passed away. Mrs. Merrifield's sister, Miss Gladys Adams, accompanied her on her return, and will attend school in Vernon.

Mrs. J. F. Crittenden, of Brandon, Man., is visiting her daughter, Mrs. Murray Stephenson, and her son, R. L. Crittenden.

Sgt. C. C. Gray, R.C.M.P., returned to his home in Calgary, Alta., last Saturday. After attending the funeral of his father, C. C. Gray.

Mrs. Muriel Drummond and small son, Bobby, spent last week in Livingston, visiting friends.

Vitamin D is essential to build strong bones and teeth and guard against rickets. Contrary to popular belief, rickets is widespread in Canada. Vitamin D is one of the best preventive medicines known. See that your child has an adequate supply all the year round.

The way a small sailing boat sits in the water is called her trim.

Golf Club Ball Great Success

A great success was the way in which the members of the Vernon Golf Club, held their annual ball at the Canadian Legion Centre on Wednesday evening, October 20. It is the hope of the club to receive the annual ball which, before the war, is said to have been one of the most entertaining social functions of the fall.

Campbell LeBlond was general chairman of the dance committee for the affair held last week. He was assisted by Mrs. Fred Dean, Miss P. Wardle, Chen Watson, Stan Neta and Reg MacArthur. Cam Dunaway's Orchestra supplied the music.

Tables were arranged in a style, and each was called "The Nineteenth Hole." Novelties and favors were used as decoration.

EVERYBODY'S BUSINESS
by
Opraham

When we shy away from... and allow our thinking to be coloured by emotions! Mr. White has somehow... himself into thinking that he is a very important person. To hear him, you would think that he was the king of the world in the community and the brains behind important schemes.

Actually he is nothing of the sort. He is just kidding himself. And as a result he is popular in many directions. Mr. Black has big plans for his job. He hopes things will "work out". But they never do because he hasn't really done certain obstacles.

Human controversial subjects. Mr. Green has strongly held views. Facing all facts would temper his opinions. But he ignores the other side of the argument. He doesn't see issues in true light.

Finally, there is Mr. Brown. A man who fails to see the good qualities in people he doesn't like. He just doesn't try.

Since we all resemble these to some extent, it pays to be a fact-facer!

Fact that over four million Canadians own life insurance policies that most people take a pessimistic view of the future. They know that life insurance offers the easiest, safest way to provide financial security for their dependents for their own old age.

A Friendly Chat

Even while the average churchgoer is lingering over a second cup of coffee on Sunday morning with that delightful relaxed sense of leisure which only the busy person knows, a little congregation of men and women assemble for a religious service every second and fourth Sunday in the month.

Very few people have occasion to think of this congregation, for while its members and those of other faiths and those who do not wish to attend worship, live here, the circumstances of their being amongst us remove them from the ordinary day to day contacts which most of us so happily make and which enrich our lives.

The people to whom we refer are the inmates of the Provincial Government Home for the Aged, located on the southern outskirts of the city. Twice a month, Rev. L. A. C. Smith, Protestant Chaplain, conducts an undenominational service for those who want to attend.

Suitably curtained off at the end of the recreation hall is a rather beautiful altar, with rich blue brocade cover and drapes. On it are the usual symbols used by the Church of England: candlesticks, vases and a cross, all of brass. A linen cloth covers the table, and there is a prayer desk from where the chaplain reads a simple service. He also plays the piano.

The service starts at 9:15 a.m. Last Sunday morning we worshipped with these strangers within our gates, most of them in the evening of their lives. The sun shone and its thin shafts picked up the altar brasses. In the vases were michaelmas daisies and rosan berries. Outside the wind rustled among the dry leaves which were then still hanging on the trees.

The hall is warm, well furnished and beautifully kept up. The ladies came in first, wearing hats and coats; then the men, in their best suits and all wearing ties.

The prayers were carefully chosen and in practically every instance, were words of one syllable. A collection of well known hymns are mimeographed on a song-sheet, from which four were sung. At times the congregation were not all singing the same words, but it didn't seem to matter.

"That we may serve Thee with a quiet mind..." read the chaplain, who prayed for "all who stand in need of Thy grace and comfort... and for those who are not feeling well, and others who have special need of God's help." I am sure God was there Sunday morning in the midst of those people who are here because of a special kind of illness, and away from their own people in practically every case.

When the chaplain shook hands

with each one after the service, they all had some little thing to say. The men, in one word, "love to sing."

There is no point, beginning or ending, to these remarks. It is just that most of us know nothing of these elderly people who live here with us.

Two weeks from today, November 11, it will be 30 years since the end of the First World War and the birth of Remembrance Day. For three decades now the thinning ranks of the survivors of the 1914-18 struggle with those "who came after" formally remember them dead around the grey and weathered shafts of remembrance from Sydney Mines, Nova Scotia, to Victoria, B.C. Wherever there is a community, there is a cairn of stones erected to the memory of the men from that district who died in World War One. To that list has now been added the names of the fallen in the Second World War, whom we remember on the now nationally recognized Remembrance Day.

Long ago someone said: "God gave us memories that we might have roses in December."

In the current copy of the "Legionary," this line has been paraphrased: "God gave us poppies that we might remember those who laid down their lives for Canada's freedom."

Remembrance Day is just another holiday to some people. To others it is almost like Good Friday. These are the people who are often moved to tears as they pause in the chilly dampness of November and remember the brightness of those lives given so willingly, and of "what might have been."

The "Legionary" states that four cents is the average per capita contribution to the Poppy campaign in Canada. In impoverished Britain it is 60 cents.

Film Feature in New Series Now Available Here

To aid members of organizations, whose particular task it is to select suitable films for their respective organizations, the Canadian Association of Adult Education recently launched an evaluation program, with the film evaluations to be published periodically. The first set of notes is now available for a nominal fee, and anyone interested is asked to contact the Extension Department, University of B.C.

The films have been considered from the point of view of not only subject matter but also of use. Categories are: For Information; Appreciation; Instruction and Discussion.

Whenever they are found suitable for one of these purposes, they are rated as "Acceptable" or "Recommended", or "Highly Recommended."

The evaluation of a film at present in the Vernon Film Council Library is "Our Striking World," produced by Young America Films, and distributed by the National Film Society and other film libraries with a running time of 10 minutes. This film depicts changes in the means of transportation, from the time when walking was the only medium of getting about, to the use of the airplane, and features developments of the air age.

The film is up-to-date and provides a suitable introduction to its subject for young or adult audiences. As it touches only superficially on many significant factors relative to world peace, it would make good discussion material only with a skilled leader. Sophisticated audiences may find its treatment too juvenile.

Suggestions for discussion are: "How can the growth of modern communications be used for building world peace? What is UNESCO's program in this field? What are the possibilities of future developments along the lines of interdependence of races and nations?"

Kelowna Ratepayers Approve Money Bylaw For Memorial Arena

KELOWNNA. Kelowna ratepayers overwhelmingly approved the \$60,000 Memorial Arena bylaw last week when 70.6 percent of the voters cast ballots in favor of the measure. While the vote was a comparatively light one compared to the previous arena bylaw submitted to ratepayers last October, a total of 601 people voted in favor of the bylaw, while 157 were opposed. There was one spoiled ballot. Total of 758 votes were cast out of 2,000 registered property owners.

The result of the poll showed that the sentiment of ratepayers towards the construction of the arena, had not changed much. Last October, out of a total of 930 people who exercised their franchise, 70.7 percent voted in favor of the \$60,000 arena bylaw.

With the overwhelming support given the bylaw, the \$230,000 arena can now be rushed to completion. Official opening of the arena will take place on November 11, and plans are well under way for arranging a suitable program.

2,500 Sheep on Move to Winter Grazing Grounds

EWINGS LANDING, Oct. 22 — Sheep from grazing grounds near Whiteman Creek trailed south on the Westside Road on Friday morning en route to winter quarters further south. This large flock, numbering approximately 2,500, is owned by the Chicago Ranch of Kelowna.

It is expected that a cougar on the prowl in the Roblin District on a goat was attacked, killed and carried from a herd during the last week. The following night a couple was shot while working a goat tied near the buildings.

A picture entitled "Nahum," painted by Mrs. Marion Harris, of Vernon, was recently accepted and hung in the Vancouver Art Gallery.

Edge Cedar Pole.
Cleared out summer activities in the cedar woods on Terrace Mountain near the old "Bremer Camp," Peter LePage sent out the last load on Wednesday. Some of the poles measured up to 65 feet, one of 85 feet being too long to take out on the logging truck.

The Nahum Campers is now closed down, having completed operations for the season. The combination of wet, cloudy weather with early frost cut down the pack considerably.

Apples by the carload are being shipped from Friday almost daily. The big packing a barrel, on which two to four cars are carried, is a familiar sight.

Approximately 1,500,000 Indians still live in Brazil.

Two Murder Trials At Kamloops Assize

KAMLOOPS.—Two murder trials were slated for the assize court sitting which began at the Court House Monday.

Harry P. Kissell, retired telegrapher, will go on trial, accused of the June 2 death of his 85-year-old wife, Mike Duncan Antoine, 37-year-old Sheswap Indian will be tried for the fatal knifing of Daniel Elkins of Williams Lake in a hop-pickers' camp on the Trans-Canada Road September 28, 1947.

T. G. Bowen Colthurst will present the crown's evidence in both trials, acting for his law partner, Russell W. Kennedy, the appointed crown counsel. David Vercher will be counsel for Kissell, and Antoine will be defended by J. O. C. Kirby.

Only the two murder trials are scheduled for next week's assize court sitting.

No civil actions have been listed but it is expected one or two petitions for divorce will come before the Supreme Court sitting which will follow the assizes.

Of all living animals, alligators and crocodiles have the smallest brains in proportion to their size.

Ignore Pheasant Ban In Southern Interior

PENTICTON. — Some district hunters are believed by officials of the Penticton Sportsmen's Association to be completely ignoring the ban on pheasant shooting.

The Penticton group said that shots were heard during the week-end south of Oliver, known to be good pheasant cover, but completely unsuited to waterfowl, or quail. However, they were too far distant to be able to accurately identify the game poachers.

"If this sort of thing goes on," said one game club official, "of what use was it for us to have the season closed for this year? Sportsmen should observe the rules, for their own eventual good." Club members will be keeping a sharp look-out for further poaching, it was stated.

According to information available, there are considerable pheasants in the southern area, a condition that could not be known for sure at the time the plea for the closed season was demanded. This fact will mean a considerably greater hatch for next year, should conditions be more normal than they were for this season. For a time it was feared that the pheasant broods had been completely wiped out, or at least materially diminished, by the spring floods.

they were for this season. For a time it was feared that the pheasant broods had been completely wiped out, or at least materially diminished, by the spring floods.

The ancient Romans made a poultice of onions and barley meal as a cure for watery eyes. They thought the onions cleared the sight by the tears they drew.

\$15 Fine for Speeding

Fleeting a fine to a charge of speeding, the Provincial Constable 1st Shaw was fined \$15 and costs in District City Police Court on Monday 12:20 a.m. on Sunday, October 17, morning when he appeared before the Acting Magistrate Dr. E. W. Prowse, an hour.

He was also issued a driver's blue license.

The speeding occurred on 23rd Street, between 1st and 2nd Avenues, on Sunday, October 17, at 12:20 a.m. Shaw was driving a 1935 Ford sedan.

Tax On Public Works Equipment Receives Severe Criticism

KAMLOOPS.—Collection of the federal 8 percent sales tax on equipment purchased by governments and municipalities for public works projects was severely criticized at the quarterly meeting of the Associated Boards of Trade of Okanagan and Mainline held in the Legion Hall on Wednesday afternoon of last week.

The question was raised by A. Browne, of Vernon. He said the equipment for Salmon Arm's water project had cost an extra \$9,000 in sales tax.

Jack Radcliffe, Associated Boards president, declared the matter had been sprung unexpectedly on the meeting and that opportunity should be given for further study of the question. He ruled the debate should be postponed until the next meeting of the Associated Boards, to be held in Revelstoke in January.

Close Trailer Camp In Penticton Area

PENTICTON.—Determined not to allow the municipal trailer camp to become a "jungle", council has decided to close the camp up tight for the winter on October 31, and to give present residents there 21 days in which to find other quarters.

The matter was discussed at length recently with Alderman T. E. Leigh particularly emphatic that the camp be closed. "We'll have squatters there if we are not careful," he stated.

Mayor Robert Lyon queried the necessity for closing the camp in the light of the fact that several construction workers are camping there. But it was pointed out that it would be necessary to close the administration building in any event to avoid freezing of the plumbing.

In the days of the Republic of Venice, the ring was the symbol of the supremacy of Venice over the Adriatic.

In the middle of the 18th century, more books had been printed in Chinese than in all other languages put together.

Father Sees Son for First Time

A touching scene took place at Montreal airport recently when Pierre Strevos, 18, centre, arrived to join his father, whom he had never seen. The father, A. Strevos, left, who immigrated from Greece in 1929, and who now owns a restaurant in Toronto, was at the airport with his cousin, C. Tipoulou. The strong meeting had been delayed over the years for various reasons, including the depression and World War II. Pierre's mother and sister hope to come to Canada in the spring of next year.

New School Site Studied By Armstrong Trustees

ARMSTRONG, Oct. 23.—A satisfactory report on the suitability of the site for the proposed new Armstrong High School, along with a white print survey of the area, was received from the District Engineer at Kamloops and studied with interest by members of the Board of School Trustees, School District 21, at Armstrong on Tuesday of last week.

The meeting was held in the Elementary School with four trustees, just sufficient for a quorum, and the secretary present.

So many questions concerning the new school site were still not answered that the Board decided to invite the District Engineer to a special meeting on November 4 to try to clear up these remaining points.

The Board adopted the minutes of the previous regular meeting and then authorized the purchase of enough small tools for the proposed Industrial Arts workshop at Enderby school to enable the instructor and students to build the necessary cupboards and benches, pending final approval by the Department of Education.

A report from Dr. Best, School Health Inspector, pointed out that the natural lighting in Kingsfisher School is not satisfactory. The report recommended that some of the trees on the window side of the school be cut down. The subject was turned over to the building committee for attention.

A notice from the Unemployment Insurance Commission stated that by an amendment to the Unemployment Insurance Act, effective October 4, employees of Municipal Councils and boards cannot be certified as permanent employees and exempt from Unemployment Insurance deductions unless they

substantially above normal, except in parts of Manitoba, when snow fell over most of the prairies in April and melted rapidly. In most areas the land was too wet for an early start and flood conditions existed in many river valleys and adjacent territory. A further cool, wet spell delayed the normal commencement of seeding altogether some two to four weeks. Very favorable weather subsequently prevailed and seeding was virtually completed early in June. The setback in seeding, however, was largely counteracted later by quick germination and rapid early growth.

Towards the end of June, although subsoil moisture was good, lack of heavy, general rains caused wide variation in crop prospects across the prairies.

Rains, falling early in July, helped improve conditions over most of Manitoba, where wheat stands were generally good and, in southern districts, commencing to head. In the next few weeks, light rains with cooler weather further benefited Manitoba crops and considerably bettered the outlook in eastern Saskatchewan and also in central, northern and southwestern Alberta. Elsewhere, prospects remained only fair to poor.

Wheat throughout the prairies was 50 percent headed and commencing to fill by the third week in July, and cutting of fall rye began in some areas. Mid-August weather was favorable for maturing crops and harvesting commenced at some points. Intermittent rains of varying intensity late in August, while aiding in the filling of late-sown grains, interrupted operations generally. However, ideal conditions prevailing shortly afterwards, harvesting was completed in Manitoba by mid-September and was well underway elsewhere. Threshing was mainly finished early in October, except in northern Alberta where precipitation delayed work. Hail caused only localized damage this season. Grasshoppers, chiefly in Saskatchewan, occasioned fairly heavy losses in confined areas. Damage from other pests was relatively light. First lowered flux yields in Manitoba, particularly of the predominantly sown Royal variety. At present, with little fall precipitation to date, the topsoil is very dry and subsoil moisture reserve poor.

British Columbia

Fruit trees and small fruits came through a favorable winter in good shape, but a wet spring, with late frosts, delayed the growing season which had an unusually heavy rainfall. Final figures for tree fruits are not yet available, but the estimated yield for 1940 compares with the four-year average, approximately as follows: apples, 92 percent (well colored but some varieties smaller-sized); peaches, 113 percent; apricots 160 percent; pears, 96 percent; plums, 105 percent; cherries, 99 percent. As compared with last year, apples were up about 20 percent, plums and cherries down about 17 percent, while other tree fruits were in about the same figures. Strawberries, raspberries and other small fruits all yielded satisfactory average crops. Excessive moisture and early frost reduced the tomato crop which is reported as below average. Onions were affected by mildew and the yield was substantially below average. The potato crop suffered from blight and in most districts yields were lower than a year ago. Other root crop yields have been satisfactory and compare favorably with the average. Harvesting of a below-average grain crop was hampered by wet weather which reduced quality and the same conditions seriously affected the yield and quality of hay crops. The yield of hops is reported as average, but quality is below normal.

have been so employed for three years. Persons who contributed to a superannuation fund or pension fund are not affected. The trustees passed the resolution as authorized by Secretary O. B. Carlson to make any necessary deductions.

Night Classes

T. A. Moore, Industrial Arts instructor at Armstrong, had indicated his willingness to organize a night school class in wood work if a sufficient number of persons were interested to form a class large enough to qualify for a government grant. He had suggested that the class be open to both men and women. The secretary was instructed to advertise the plan to find out how many would enroll.

As the two, new 55-passenger school buses are expected to be delivered by October 31, authorization was given to advertise the two buses which they are replacing, for sale.

White leather belts have been purchased for the school bus monitors, one for each of the large vehicles. The transportation committee was empowered to define the duties of these monitors.

Parents of Senior Matriculation students are to be notified that all tuition fees for the current school year must be paid before February 1. The fee is \$1 per subject, per month, or \$10 per subject for the year.

Before adjourning the trustees approved payment of the following accounts:

Regular teachers' salary payroll for September, \$8,127.50; substitute teachers, \$5.50; supplementary payroll for September, \$861.60; transportation, including school bus insurance, \$2,587.05; sundry accounts to September 30, \$725.03; sundry accounts, \$2,168.27. Total, \$14,474.95.

STARTLING FACT! More people buy and enjoy Maxwell House than any other brand of coffee in the world at any price! For glorious rich and mellow coffee "Maxwell House."

QUICK RELIEF FROM PAIN

Do women need to suffer so?—mothers are often asked. On mother writes: "The company my recommended Paradol when my daughter feared she would lose her job because of the lost each month. Now she loses no time and does not suffer pain or discomfort. Paradol is a relief for women who suffer each month. Quick relief also from back aches and neuralgic pains. The name 'Dr. Chase' is your assurance. Carry Paradol in your purse."

DR. CHASE'S PARADOL

Is Your Soil 100% Efficient?

Success in farming depends on wise land use. Improved farm practices include:

- Drainage and Irrigation.
- Soil Conservation.
- Crop Rotation.
- Proper Tillage.
- Proper use of Fertilizers and Soil Amendments.
- Good Seed of Suitable Varieties.

REMEMBER—The top six inches of soil feeds the world!

Ben Hughes
Ben Hughes, Editor of the Courtenay-Comox Argus.

"I'm zealously, fanatically in favor of the Democratic System"

"I can say with certainty for the Courtenay-Comox Argus that now and during the past quarter of a century no government or any body or agency outside the business has dictated the policy of the paper, and I believe that is true of the great majority of Canadian newspapers," says Ben Hughes, Editor of the Courtenay-Comox Argus.

"The only people who can dictate to Canadian publishers are their subscribers and, without circulation you cannot get advertising. Therein lies the safeguard of a free press under the private enterprise system. A free press is your safeguard against inefficiency in high places everywhere; against anybody who'd impose on your rights."

"But nobody, and especially no government, likes to be criticized. And a Communist or state monopoly government could make it very tough for a newspaper which attacked it."

"How? Well, with the government controlling everything, they could soon put on the pressure through newspaper rationing, manpower direction, or straight control."

"That's why I'm against Communism or any state monopoly system. As we saw in Hitler-land yesterday and Stalin-land today, the first thing the Communists do is to get hold of the newspapers; either the editor follows the party line or he goes to the concentration camp. The greater concentration of power there is in the hands of the government, the greater danger there is to a free press."

"I'm a practical newspaper man, and I've done a lot of criticizing of the government in my time. I'm zealously, fanatically in favor of the democratic system. It's the only system... that'll give us a free press... the only system where we can be sure of seeing that too much power does not get into the hands of the government."

Standard Oil Company of British Columbia Limited
Marine Building, Vancouver, B.C.

This is one in a series of advertisements sponsored by Standard of B.C. and its associates, the independent Chevron-Dealers, to present the people's views on the values and opportunities available to us in British Columbia under our democratic free enterprise system. Last Rites Held at Kamloops for Mother Of Vernon Policeman

Friends in Vernon and district of Cpl. J. A. Knox, in charge of Vernon Detachment, Provincial Police, and Mrs. Knox, will regret to hear of the death in Kamloops on October 13, of Mrs. Mary Caroline Knox, mother of Cpl. Knox. Last rites were held from St. George's Anglican Church, North Kamloops, on Friday afternoon, October 15. Rev. Canon E. Pitt Griffiths of St. Paul's Cathedral Church officiating.

Mrs. Knox, widow of John M. Knox, was born in London, England, and settled in Kamloops with her late husband and family 36 years ago.

She had been an active member of St. George's Church Women's Auxiliary and for 15 years had been secretary-treasurer of the organization.

Besides Cpl. Knox, two other sons survive: Leslie James Knox and Philip Thomas Knox, both of North Kamloops; three grandchildren; a brother, Thomas J. Jarvis, of Kamloops, and a sister, Mrs. J. Thorp, in England.

Will Appraise Needs Of B.C. Hospitals

Dr. J. M. Hershey, Commissioner of Hospital Insurance, has announced that a complete survey of all British Columbia hospitals will be made by James A. Hamilton and associates, hospital consultants of Minneapolis, Minn., starting about November 1 and taking approximately six months to complete.

The purpose of the survey is to appraise the hospital needs of the province and to prepare a long-range plan including an assessment of the quantity and type of hospital requirements needed; number and type of hospital beds needed and estimate of the cost; and an estimate of the number and types of professional skilled personnel needed to carry out the hospital program together with a suggested training program.

The candy industry uses about 80 varieties of farm products.

In the latter half of the 16th century, the Dutch astronomer Huygens and the Danish astronomer Roemer built a planetarium to represent the solar system.

Ski-Belle

Martha Mitchell, Florida water ski champion, rings the bell with this head-on shot of a pretty aqua-maid in action at Cypress Gardens, Fla.

Tense Moments For Students in Qualifying Show

There were several tense moments for student farm club competitors in the Vernon High School basement Friday afternoon, as William Roach, Dominion A.P.A. judge and R.O.P. inspector, also Morris S. Middleton, former District Horticulturist, weighed the various points of poultry and potatoes in a Qualifying Show. Some students who entered the competition had shown at the recent Interior Provincial Exhibition at Armstrong. To be eligible for the prize money put up by the Department of Agriculture, competitors must have exhibited in either the first-named fair, or Friday's qualifying show.

There were six Provincial Government awards in each class, the first prize in each class being \$3.50. In addition, there was a prize of 50 cents and a mallard duck for the first prize winner in each class, with 50 cents for the second and 25 cents for the third. The mallards were given by club organizer and High School teacher, Howard Thornton. The last named cash was profit from a bus transaction when a vehicle was hired at the time of the Armstrong Fair for \$10, and fares totalled more than the required amount; this being, in Mr. Thornton's opinion, "the students' money."

A mallard was also given as a prize for the best bird in the classes for Rocks, Hampshires and Leghorns, and for the best potato and best bird in the show.

Award Winners

Prizewinners in the poultry division were, in order of merit: New Hampshires—S. Inouye, Lily Toporchuk; Club 2, Frank Kato, Ernest Fuhr, Walter Moronyk; Club 3, Andy Kosmina, Toshiki Hamazaki, Ronnie Burnham. Best Hampshire in the class, Frank Kato.

Barred Rocks—Club 1, Richard Marven, Walter Kocubla, Jerry Yakimovich; Club 2, Ernie Kurbla, Mike Kowalik, Alfred Pitzel; Club 3, Arthur Bergman, Ronald Galski, Rosie Thaller.

White Leghorns—Brian Gregson, George Galski.

Richard Marven won the special prize for the best bird in the show.

There were 10 entries in the Potato Clubs, judged by Mr. Middleton, assisted by G. Muirhead, of Salmon Arm, Interior Farm Club Supervisor. Prize winners in order of merit were: Ernie Kurbla, Walter Ulanyski, Walter Moronyk, Club 2, Brian Gregson.

Awards in the poultry show were not only based on the birds shown, but on the record of performance during the year.

Ton of Seed

The potatoes were all Netted Gem variety. Through Mr. Middleton, a ton of certified Foundation A Netted Gem seed was secured last spring, a sack being bought by each competitor. Each sack will plant approximately one-tenth of an acre, the students looking after them during the season. One inspection by the organizer is given during the season and a second when the potatoes are "in the bin."

The program includes a record of the type of soil used with the previous crop; date plot was planted; how land cultivated before planting; whether whole or cut potatoes are used for seed and what depth sown; dates of cultivations; and whether are done after rain; was crop dusted or sprayed; and, if so, when; what fertilizers used.

One had told The Vernon News that a ton or more of "spuds" should result. A total of 400 pounds is possible for each competitor; 100 for the show; 100 for grading by inspector; 100 for the written record; and 100 for the organizer's report on the season's work.

Agriculture

(Continued from Page 17)

suggested all farmers should be encouraged to fertilize sufficiently to attain maximum production and marketable quality of the crop. He believed, however, that the use of mineral food supplements for humans should receive serious consideration, as it has for animals.

Storage and Handling

Dr. D. V. Fisher, fruit harvesting and storage expert at the Summerland Experimental Station, spoke on "the effects of methods of handling and storage on the health value of food." He outlined the recommended methods for handling and storing meat, milk, eggs, vegetables, fruit, and other agricultural products. He stressed the necessity of retaining not only the proper flavor and consistency of the food, but also its original vitamin content.

Dr. C. C. Strachan, in charge of the fruit and vegetable by-products laboratory at the Summerland Experimental Station, spoke on "the effects of processing procedures on the health value of processed foods." He stressed the serious losses that occur in the vitamin and mineral contents of foods by improper processing. He suggested that health would be better protected if higher vitamin contents were assured, such as by grading tomato juice on the basis of its vitamin C content, and by adding vitamin C to all canned apple juice.

Dr. H. B. L. Zeman, director of the South Okanagan Health Unit at Kelowna, spoke on "the use of vitamin and mineral supplements in relation to human health." She pointed out the benefits that have accrued from the use of iodized salt. Surveys have indicated, she said, that vitamins D and C are frequently deficient in our foods and that in many cases the diet should be supplemented with either or both of these vitamins.

Speakers on the agenda who were not able to attend the conference were W. H. Hill, Director of the Dominion Food and Drugs Laboratory in Vancouver, and G. A. Luyat, Supervising District Agriculturist at Kamloops.

Sanitation Report

In the course of the discussion following these papers, a comprehensive report on the inspection and regulation of public eating places was given by E. B. Winstanley, sanitation inspector, of Vernon. Most eating places, he said, were giving the authorities good co-operation.

After considerable discussion, resolutions were passed asking for the following courses of action:

The fortification with vitamin C of all apple juice produced commercially in Canada.

The grading of tomato juice on the basis of its ascorbic acid content as well as on its color and its solids content.

The addition of iodine to all salt destined for human or animal consumption in Canada.

An investigation by the agrologists and public health officials, of the fluorine content of Okanagan drinking water and Okanagan fruit.

97.7 Percent of Property Taxes Paid in Kelowna

KELOWNA.—Total of 97.7 percent of the 1948 property taxes have been paid by Kelowna residents, it was revealed last Thursday morning when deadline for paying this year's taxes was reached on Tuesday. Taxes levied during 1948 amounted to \$278,792.92, of which \$273,383.62 was collected, leaving a balance of \$5,409.30.

Last year, percentage of taxes paid amounted to 98.2 percent, which was an all-time high. However, despite the fact that the 1948 mill rate was boosted five mills, sewer connection fees and sewer rental fees increased, coupled with the fact that money is a little "tighter" today compared with a year ago, the 1948 returns are considered "highly satisfactory," according to civic officials.

Many taxpayers waited until the last minute to make their payments. During the last two days a total of \$61,124 was taken over the counter at the city office. During the month of September, \$23,000 was taken in, while from October 1 to 18, another \$76,000 swelled city coffers.

More than 20 percent of the inhabitants of Kelowna, the Carleton Place, Georgia, Tennessee, Alabama, Mississippi, Arkansas, Louisiana and New Mexico had less than four years of schooling in 1940, says a Twentieth Century Fund report.

Good Time Assured at Westwold on Halloween

WESTWOLD, Oct. 25.—The sports committee met at the home of V. David last Wednesday evening and it was decided to start badminton for the winter season on November 1. A schedule of nights available will be posted for complete information.

A grand evening is in prospect.

for the youngsters, on Saturday, October 30. The W.I. are putting on a big party for them in the Hall. There will be plenty of fun—ghost stories, fireworks and other events. Prizes will be given for the best costume and all are expected to "dress up."

It is all free and there will be plenty of "treats" and candy.

China is divided into 28 provinces.

\$15 Fine for Speeding

Flooding a city to a charge of speeding the speed limit. Charles Shaw was fined \$15 and costs in City Police Court on Monday morning when he appeared before Acting Magistrate Dr. E. W. Prowse.

He was also issued a driver's license. The speeding occurred on Shaw Street. Provincial Constable Ed. Dark told the court that Shaw's car was clocked at 40 miles an hour.

Tax On Public Works Equipment Receives Severe Criticism

KAMLOOPS.—Collection of the federal 8 percent sales tax on equipment purchased by governments and municipalities for public works projects was severely criticized at the quarterly meeting of the Associated Boards of Trade of Okanagan and Mainline held in the Legion Hall on Wednesday afternoon of last week.

The question was raised by A. Browne, of Vernon. He said the equipment for Salmon Arm's water project had cost an extra \$9,000 in sales tax.

Jack Radcliffe, Associated Boards president, declared the matter had been sprung unexpectedly on the meeting and that opportunity should be given for further study of the question. He ruled the debate should be postponed until the next meeting of the Associated Boards, to be held in Revelstoke in January.

Close Trailer Camp In Penticton Area

PENTICTON.—Determined not to allow the municipal trailer camp to become a "jungle," council has decided to close the camp up tight for the winter on October 31, and to give present residents there 21 days in which to find other quarters.

The matter was discussed at length recently with Alderman T. E. Leigh particularly emphatic that the camp be closed. "We'll have squatters there if we are not careful," he stated.

Mayor Robert Lyon queried the necessity for closing the camp in the light of the fact that several construction workers are camping there. But it was pointed out that it would be necessary to close the administration building in any event to avoid freezing of the plumbing.

In the days of the Republic of Venice, the ring was the symbol of the supremacy of Venice over the Adriatic.

In the middle of the 18th century, more books had been printed in Chinese than in all other languages put together.

**Father Sees Son for First Time**

A touching scene took place at Montreal airport recently when Pierre Strevas, 18, centre, arrived to join his father, whom he had never seen. The father, A. Strevas, left, who immigrated from Greece in 1929, and who now owns a restaurant in Toronto, was at the airport with his cousin, C. Tiponlow. The strong meeting had been delayed over the years for various reasons, including the depression and World War II. Pierre's mother and sister hope to come to Canada in the spring of next year.

New School Site Studied By Armstrong Trustees

ARMSTRONG, Oct. 23.—A satisfactory report on the suitability of the site for the proposed new Armstrong High School, along with a white print survey of the area, was received from the District Engineer at Kamloops and studied with interest by members of the Board of School Trustees, School District 21, at Armstrong on Tuesday of last week.

The meeting was held in the Elementary School with four trustees, just sufficient for a quorum, and the secretary present.

So many questions concerning the new school site were still unanswered that the Board decided to invite the District Engineer to a special meeting on November 4 to try to clear up these remaining points.

The Board adopted the minutes of the previous regular meeting and then authorized the purchase of enough small tools for the proposed Industrial Arts workshop at Enderby school to enable the instructor and students to build the necessary cupboards and benches, pending final approval by the Department of Education.

A report from Dr. Best, School Health Inspector, pointed out that the natural lighting in Kingsfisher School is not satisfactory. The report recommended that some of the trees on the window side of the school be cut down. The subject was turned over to the building committee for attention.

A notice from the Unemployment Insurance Commission stated that by an amendment to the Unemployment Insurance Act, effective October 4, employees of Municipal Councils and boards cannot be certified as permanent employees and exempt from Unemployment Insurance deductions unless they

Wheat throughout the prairies was 50 percent headed and commencing to fill by the third week in July, and cutting of fall rye began in some areas. Mid-August weather was favorable for maturing crops and harvesting commenced at some points. Intermittent rains of varying intensity late in August, while aiding in the filling of late-sown grains, interrupted operations generally. However, ideal conditions prevailing shortly afterwards, harvesting was completed in Manitoba by mid-September and was well underway elsewhere.

Threshing was mainly finished early in October, except in northern Alberta where precipitation delayed work. Hail caused only localized damage this season. Grasshoppers, chiefly in Saskatchewan, occasioned fairly heavy losses in confined areas. Damage from other pests was relatively light. Rust lowered flax yields in Manitoba, particularly of the predominantly sown Royal variety. At present, with little fall precipitation to date, the topsoil is very dry and subsoil moisture reserve poor.

British Columbia

Fruit trees and small fruits came through a favorable winter in good shape, but a wet spring, with late frosts, delayed the growing season which had an unusually heavy rainfall. Final figures for tree fruits are not yet available, but the estimated yield for 1944 compares with the four-year average, approximately as follows: apples, 92 percent (well colored but some varieties smaller-sized); peaches, 113 percent; apricots 160 percent; pears, 90 percent; plums, 105 percent; cherries, 99 percent. As compared with last year, apricots were up about 20 percent, plums and cherries down about 17 percent, while other tree fruits were in about the same figures. Strawberries, raspberries and other small fruits all yielded satisfactory average crops. Excessive moisture and early frost reduced the tomato crop which is reported as below average. Onions were affected by mildew and the yield was substantially below average. The potato crop suffered from blight and in most districts yields were lower than a year ago. Other root crop yields have been satisfactory and compare favorably with the average. Harvesting of a heavy-average grain crop was hampered by wet weather which reduced quality and the same conditions seriously affected the yield and quality of hay crops. The yield of hops is reported as average, but quality is below normal.

have been so employed for three years. Persons who contributed to a superannuation fund or pension fund are not affected. The trustees passed the resolution as authorized secretary O. B. Carlson to make any necessary deductions.

Night Classes

T. A. Moore, Industrial Arts instructor at Armstrong, had indicated his willingness to organize a night school class in wood work if a sufficient number of persons were interested to form a class large enough to qualify for a government grant. He had suggested that the class be open to both men and women. The secretary was instructed to advertise the plan to find out how many would enroll.

As the two, new 55-passenger school buses are expected to be delivered by October 31, authorization was given to advertise the two buses which they are replacing, for sale.

White leather belts have been purchased for the school bus monitors, one for each of the large vehicles. The transportation committee was empowered to define the duties of these monitors.

Parents of Senior Matriculation students are to be notified that all tuition fees for the current school year must be paid before February 1. The fee is \$1 per subject, per month, or \$10 per subject for the year.

Before adjourning the trustees approved payment of the following accounts:

Regular teachers' salary payroll for September, \$8,127.50; substitute teachers, \$5.50; supplementary payroll for September, \$861.63; transportation, including school bus insurance, \$2,587.05; sundry accounts to September 30, \$725.03; sundry accounts, \$2,168.27. Total, \$14,474.95.

STARTLING FACT! Most people buy and enjoy Maxwell House brand of coffee in the world at any price! For glorious rich and mellow coffee "Maxwell House."

"Do women need to suffer so?" mothers are often asked. On mother writes: "The company recommended Paradol when my daughter feared she would lose her job because of time lost each month. Now she loses no time and does not suffer pain or discomfort. Paradol is the answer for women who suffer each month. Give relief also from headaches and neuritis pains. The name 'Dr. Chase's Paradol' is your guarantee. Carry Paradol in your purse."

Ben Hughes

Ben Hughes, Editor of the
Courtenay-Comox Argus.

"I'm zealously, fanatically in favor of the Democratic System"

"I can say with certainty for the Courtenay-Comox Argus that now and during the past quarter of a century no government or any body or agency outside the business has dictated the policy of the paper, and I believe that is true of the great majority of Canadian newspapers," says Ben Hughes, Editor of the Courtenay-Comox Argus.

"The only people who can dictate to Canadian publishers are their subscribers and, without circulation, you cannot get advertising. Therein lies the safeguard of a free press under the private enterprise system. A free press is your safeguard against inefficiency in high places everywhere; against anybody who'd impose on your rights.

"But nobody, and especially no government, likes to be criticized. And a Communist or state monopoly government could make it very tough for a newspaper which attacked it.

"How? Well, with the government controlling everything, they could soon put on the pressure through newspaper rationing, manpower direction, or straight control.

"That's why I'm against Communism or any state monopoly system. As we saw in Hitler-land of yesterday and Stalin-land of today, the first thing the Communists do is to get hold of the newspapers; either the editor follows the party line or he goes to the concentration camp. The greater concentration of power there is in the hands of the government, the greater danger there is to a free press.

"I'm a practical newspaper man, and I've done a lot of editing of the government in my time. I'm zealously, fanatically in favor of the democratic system. It's the only system . . . that'll give us a free press . . . the only system where we can be sure of seeing that too much power does not get into the hands of the government."

Standard Oil Company of British Columbia Limited
Marine Building, Vancouver, B.C.

This is one in a series of advertisements sponsored by Standard of B.C. and its associates, the independent Chevron Dealers, to present the people's view on the values and opportunities available to us in British Columbia under our democratic free opportunity system. This system, we are convinced, offers the greatest incentives, the highest standards of living, the best job-security and freedom of thought and action.

Last Rites Held at Kamloops for Mother Of Vernon Policeman

Friends in Vernon and district of Cpl. J. A. Knox, in charge of Vernon Detachment, Provincial Police, and Mrs. Knox, will regret to hear of the death in Kamloops on October 13, of Mrs. Mary Caroline Knox, mother of Cpl. Knox. Last rites were held from St. George's Anglican Church, North Kamloops, on Friday afternoon, October 15. Rev. Canon E. Pitt Griffiths of St. Paul's Cathedral Church officiating.

Mrs. Knox, widow of John M. Knox, was born in London, England, and settled in Kamloops with her late husband and family 36 years ago.

She had been an active member of St. George's Church Women's Auxiliary and for 15 years had been secretary-treasurer of the organization.

Besides Cpl. Knox, two other sons survive: Leslie James Knox and Philip Thomas Knox, both of North Kamloops; three grandchildren; a brother, Thomas J. Jarvis, of Kamloops, and a sister, Mrs. J. Thorp, in England.

Will Appraise Needs Of B.C. Hospitals

Dr. J. M. Hershey, Commissioner of Hospital Insurance, has announced that a complete survey of all British Columbia hospitals will be made by James A. Hamilton and associates, hospital consultants of Minneapolis, Minn., starting about November 1 and taking approximately six months to complete.

The purpose of the survey is to appraise the hospital needs of the province and to prepare a long-range plan including an assessment of the quantity and type of hospital requirements needed; number and type of hospital beds needed and estimate of the cost; and an estimate of the number and types of professional skilled personnel needed to carry out the hospital program together with a suggested training program.

The candy industry uses about 80 varieties of farm products.

In the latter half of the 16th century, the Dutch astronomer Huygens and the Danish astronomer Roemer built a planetarium to represent the solar system.

Ski-Belle

Martha Mitchell, Florida water ski champion, rings the bell with this head-on shot of a pretty aqua-maid in action at Cypress Gardens, Fla.

Tense Moments For Students in Qualifying Show

There were several tense moments for student farm club competitors in the Vernon High School basement Friday afternoon, as William Roach, Dominion A.P.A. judge and R.O.P. inspector, also Morris S. Middleton, former District Horticulturist, weighed the various points of poultry and potatoes in a Qualifying Show. Some students who entered the competition had shown at the recent Interior Provincial Exhibition at Armstrong. They were eligible for the prize money put up by the Department of Agriculture, competitors must have exhibited in either the first-named fair, or Friday's qualifying show.

There were six Provincial Government awards in each class, the first prize in each class being \$3.50. In addition, there was a prize of 50 cents and a mallard duck for the first prize winner in each class, with 50 cents for the second and 25 cents for the third. The mallards were given by club organizer and High School teacher, Howard Thornton. The last named cash was profit from a bus transaction when a vehicle was hired at the time of the Armstrong Fair for \$10, and fares totalled more than the required amount; this being, in Mr. Thornton's opinion, "the students' money."

A mallard was also given as a prize for the best bird in the classes for Rocks, Hampshires and Leghorns, and for the best potato and best bird in the show.

Award Winners

Prizewinners in the poultry division were, in order of merit: New Hampshires—S. Inouye, Lily Toporchuk; Club 2—Frank Kato, Ernest Fuhr, Walter Moronyk; Club 3, Andy Kosmin, Toshiki Hamazaki, Ronnie Burnham, Best Hampshire in the class, Frank Kato.

Barred Rocks—Club 1, Richard Marven, Walter Kocub, Jerry Yakimovitch; Club 2, Ernie Kurbs, Miko Kowaluk, Alfred Pritzel; Club 3, Arthur Bergman, Ronald Gutski, Rosie Thuller.

White Leghorns—Brian Gregson, George Gutski.

Richard Marven won the special prize for the best bird in the show.

There were 10 entries in the Potato Clubs, judged by Mr. Middleton, assisted by G. Multhead, of Salmon Arm, Interior Farm Club Supervisor. Prize winners in order of merit were: Ernie Kurbs, Walter Ulanitsky, Walter Moronyk, Club 2, Brian Gregson.

Awards in the poultry show were not only based on the birds shown, but on the record of performance during the year.

Ton of Seed

The potatoes were all Netted Gem variety. Through Mr. Middleton, a ton of certified Foundation A Netted Gem seed was secured last spring, a sack being bought by each competitor. Each sack will plant approximately one-tenth of an acre, the students looking after them during the season. One inspection by the organizer is given during the season and a second when the potatoes are "in the bin."

The program includes a record of the type of soil used with the previous crop; date plot was plowed; how land cultivated before planting; whether whole or cut potatoes are used for seed and what depth sown; dates of cultivations and whether are done after rain; was crop dusted or sprayed, and if so, when; what fertilizers used.

One had told The Vernon News that a ton or more of "spuds" should result. A total of 400 points is possible for each competitor: 100 for the show; 100 for grading by inspector; 100 for the written record; and 100 for the organizer's report on the season's work.

Agriculture

(Continued from Page 17)

suggested all farmers should be encouraged to fertilize sufficiently to attain maximum production and marketable quality of the crop. He believed, however, that the use of mineral food supplements for humans should receive serious consideration, as it has for animals.

Storage and Handling

Dr. D. V. Fisher, fruit harvesting and storage expert at the Summerland Experimental Station, spoke on "the effects of methods of handling and storage on the health value of food." He outlined the recommended methods for handling and storing meat, milk, eggs, vegetables, fruit, and other agricultural products. He stressed the necessity of retaining not only the proper flavor and consistency of the food, but also its original vitamin content.

Dr. C. C. Strachan, in charge of the fruit and vegetable by-products laboratory at the Summerland Experimental Station, spoke on "the effects of processing procedures on the health value of processed foods." He stressed the serious losses that occur in the vitamin and mineral contents of foods by improper processing. He suggested that health would be better protected if higher vitamin contents were assured, such as by grading tomato juice on the basis of its vitamin C content, and by adding vitamin C to all canned apple juice.

Dr. H. B. L. Zeman, director of the South Okanagan Health Unit at Kelowna, spoke on "the use of vitamin and mineral supplements in relation to human health." She pointed out the benefits that have accrued from the use of iodized salt. Surveys have indicated, she said, that vitamins D and C are frequently deficient in our foods and that in many cases the diet should be supplemented with either or both of these vitamins.

Speakers on the agenda who were not able to attend the conference were W. H. Hill, Director of the Dominion Food and Drugs Laboratory in Vancouver, and G. A. Luyat, Supervising District Agriculturist at Kamloops.

Sanitation Report

In the course of the discussion following these papers, a comprehensive report on the inspection and regulation of public eating places was given by E. B. Winstanley, sanitation inspector, of Vernon. Most eating places, he said, were giving the authorities good co-operation.

After considerable discussion, resolutions were passed asking for the following courses of action:

The fortification with vitamin C of all apple juice produced commercially in Canada.

The grading of tomato juice on the basis of its ascorbic acid content as well as on its color and its solids content.

The addition of iodine to all salt destined for human or animal consumption in Canada.

An investigation by the agriculturalists and public health officials, of the fluorine content of Okanagan drinking water and Okanagan fruit.

97.7 Percent of Property Taxes Paid in Kelowna

KELOWNA.—Total of 97.7 percent of the 1948 property taxes have been paid by Kelowna residents, it was revealed last Thursday morning when deadline for paying this year's taxes was reached on Tuesday. Taxes levied during 1948 amounted to \$278,792.92, of which \$272,593.62 was collected, leaving a balance of \$6,199.30.

Last year, percentage of taxes paid amounted to 98.2 percent, which was an all-time high. However, despite the fact that the 1948 mill rate was boosted five mills, sewer connection fees and sewer rental fees increased, coupled with the fact that money is a little "tighter" today compared with a year ago, the 1948 returns are considered "highly satisfactory," according to civic officials.

Many taxpayers waited until the last minute to make their payments. During the last two days a total of \$61,124 was taken over the counter at the city office. During the month of September, \$23,000 was taken in, while from October 1 to 18, another \$76,000 swelled city coffers.

More than 20 percent of the inhabitants of Virginia, the Carolinas, Georgia, Tennessee, Alabama, Mississippi, Arkansas, Louisiana and New Mexico had less than four years of schooling in 1940, says a Twentieth Century Fund report.

Good Time Assured at Westwold on Hallowe'en

WESTWOLD, Oct. 25—The sports committee met at the home of V. David last Wednesday evening and it was decided to start badminton for the winter season on November 1. A schedule of nights available will be posted for complete information.

A grand evening is in prospect.

for the youngsters on Saturday, October 30. The W.I. are putting on a big party for them in the Hall. There will be plenty of fun—ghost stories, fireworks and other events. Prizes will be given for the best costume and all are expected to "dress up."

It is all free and there will be plenty of "treats" and candy.

China is divided into 28 provinces.

Kin Dream of Decade Ago Worthy Community Asset

In the early 1930's members of the Vernon Kinsmen Club had a dream.

They visualized a playground at Okanagan Lake which would be a safe bathing beach for children and also a spot where citizens could relax in the summer evenings, Sundays and holidays; close enough to the city to be practical for kiddies and the average person.

On May 11, 1934, the club purchased the piece of ground now known as the Kinsmen's Beach. It cost them \$1,200 and a note for the purchase was backed by four of their members.

Today, 14 years later, they see their aspirations fulfilled beyond their optimistic dreams, as the finishing touches are being put to the 410-foot pier at the beach.

Last week this reporter made a special trip to the property. It was one of the beautiful Indian summer days enjoyed recently. The Lombardy poplars which fringe the oval with its 1,200 feet of beach, or foreshore, were liquid gold. The surrounding hills, the lapping waves, the green grass in the playground—all made a lovely picture.

The Beach is a permanent tribute to the Kinsmen who, with vision and foresight, bought the land; and to the public which has supported them in their money-raising projects, such as auctions, dances, tag days, and many others, including Vernon Days.

In 1936, Kin members planted the trees which now encircle the playground. These are nearly all Lombardy poplars, with a few maples and willows and two walnut trees in the northern corner. At that time the late Max Ruhmann was alive and an honorary member of the Kinsmen Club. He took a great interest in the project, supervising planting of the trees and their subsequent care until they were thoroughly rooted and established.

Bucket Brigades

Club members would drive down to the beach on spring and summer evenings and water the trees by hand, through bucket brigades. Their hard work is well rewarded. They know the strength and beauty of these trees, with their welcome shade and restful atmosphere.

Charlie Offord lives in the stuccoed cottage, wired also for electric light, and keeps an eye on the property for the club.

When the beach was first acquired, five to 10 cars of people

would visit the spot on Sundays. Now up to 200 cars can be seen parked there any fine Sunday during the summertime.

For many years the property has been lit up at night, and the twinkling lights can be seen for many miles down the lake.

The Kinsmen chose wisely when they selected the site. It is a safe beach, inasmuch as there are no treacherous holes or sudden slopes to trap unwary or inexperienced bathers, or children. From 10 to 15 feet out there is gravel, and from there on sand. It is suggested that sand may be hauled for the water's edge for the greater comfort of bathers.

The latest project is the 410-foot pier, 10 feet wide, with an 11-foot depth at the far end. Contractor was Charlie Holmes. The piles are 16 feet. The cost of the pier to date, without the diving tower and minus the voluntary work of club members who made up "decking parties" to lay the planking, is approximately \$2,600.

The diving tower is still to be erected. The far end is designed in a head "T" design, to offset any conditions during winter.

The park has picnic tables, swings, a "teeter-totter" and a merry-go-round. The latter is safe for the smallest child. It is low enough that they cannot fall off but has colored horses and pedals in approved merry-go-round style.

It is suggested a covered kitchen may be built, with cooking facilities and barbecue, for convenience in cooking picnic meals. Another improvement and additional attraction mooted by the club is a swimming pool, where small children could play with absolutely no danger; nor inconvenience from waves should the lake be rough.

Although this is not the season of the year in which to boost a beach, the Kinsmen's work is an all-year-round job. Besides this valuable asset, the club owns the race track, which puts the organization in an enviable position for a service club insofar as assets are concerned.

This is only part of their good works. In 1947-48 they donated \$2,800 to various local groups, such as the Vernon branch, Red Cross Society; the B.C. Emergency Flood Relief; B.C. Cancer Institute; B.C. Tuberculosis Association; Salvation Army; Boy Scouts; the midwest hockey team and other projects. "But without the support of the public, we could have done nothing," Kinsmen say.

Want Instruction Given Immigrants

SCREEN FLASHES

Pert and pretty June Haver, who has seven successful technicolor musicals to her screen credit, may be entering a new phase of her career with "Scudda - Hoo! Scudda - Hay!" which opens tonight at the Capitol theatre. The lively picture, filmed in technicolor, gives June her first straight dramatic role.

In "Scudda-Hoo! Scudda-Hay!" a story of young love, heart-stirring drama and violent conflict, June plays the role of flirtatious "Rad McGill", who is both the rose and the thorn in the life of Lon McCallister, reunited with June for the first time since their parting in "Home in Indiana." The part offers Miss Haver many fine dramatic moments. June's acting talent comes through in a very impressive manner.

Walter Brennan, Anne Revere and Natalie Wood are seen in the outstanding supporting cast of the exciting and dramatic film hit.

"Duel in the Sun", the giant technicolor production of 1946, comes to the Capitol theatre next Monday, Tuesday and Wednesday, with one of the greatest all-star casts ever assembled for a motion picture.

Jennifer Jones, Gregory Peck, Joseph Cotton, Lionel Barrymore, Herbert Marshall, Lillian Gish, Walter Huston and many other screen celebrities give full play to their acting talents in this story of the era when the railroads first pushed across the wild lands of the Texas cattle kings.

The sensitive, Academy Award-winning star, Jennifer Jones, plays the role of a fiery half-breed Indian girl, Pearl Chavez.

Gregory Peck is a rugged, rough-riding, sharp-shooting Texan who is not above murdering for Pearl. He vies with his gentler, idealistic brother, Jesse, played by Joseph Cotton, for the Indian girl's affections.

Presenting a dazzling array of stars and a variety of talent that staggers the imagination, "The Goldwyn Picture", the glorious magnificence of the extravaganza which marks the first entertainment

KAMLOOPS.—Members of the Associated Boards of Trade of Okanagan and Mainline want all immigrants to be instructed in the ways of Canadian life. At the quarterly meeting in Legion Hall last week, a resolution submitted from the Kamloops Board was unanimously adopted. It suggests that all persons coming into Canada from foreign lands should be given instruction in the language of their adopted country and with its democratic institutions.

Discussing immigrants, the delegation stressed that in the United States much greater emphasis is placed upon the educating of immigrants.

Canadians, said one delegate, are not sufficiently demonstrative in their pride of their democratic institutions. He thought more evidence could be displayed in public buildings by such emblems as the national flag.

A resolution urging that public farm rehabilitation existing on the prairie provinces be extended to British Columbia, also was adopted. This resolution also was submitted by Kamloops Board of Trade.

ment in Goldwyn's 25 years of pleasure-making to carry the producer's name, begins a three-day engagement at the Empress theatre tonight, Thursday.

The musical, which also marks the producer's swing to the color standard, has been produced on a scale more lavish, more opulent and more magnificent than anything the screen has ever known.

Goldwyn invaded every field of entertainment to find stars to augment the screen cast headed by suave Adolphe Menjou, The 14th Brothers and the beautiful, rising young star, Andrea Leeds.

Gene Raymond has successfully accomplished an almost impossible feat—the switch from screen smoothie to tough detective—and it is his expert performance which highlights the Empress pinch-picking melodrama "Assigned to Danger", which opens Monday for three days.

Lovely Noreen Nash, co-starred with Raymond, again demonstrates that she is headed straight for the top rung of movie fame.

Amusing entertainment . . . that's movie-land's sensational drama of post-war Paris, "To The Victor", which starts a three-day run on Monday at the Empress theatre.

Shot against a Paris and Normandy background, "To The Victor", which co-stars Donna Morgan, with the new Swedish import, Viveca Lindfors, emerges as strong entertainment.

THE Bay Fall Fashions

FUR FASHION FOR 1948

More alluring than ever!

AND THE BAY'S NEW MUSKRAT COATS

are shining examples with their luxurious three-fold backs of soft, gleaming fur; their wide, full sleeves drawn tight at the cuffs, and their smooth shoulder-to-hem lines.

Skillfully made from selected and perfectly matched back Muskrat pelts, they are the height of Winter elegance. Sizes 14 to 20. Price.

395.00

MOUTON COATS

Rich brown Mouton Coats with velvety-soft deep fur . . . famous for quality, warmth and durability. Luxurious and forever fashionable, they are styled to the minute, with full flared backs, wide rich collars and broad sleeves drawn in at the wrists by exquisitely upturned cuffs. Sizes 10, 14 and 16. Prices—

129.00 and 169.00

FASHION NEWS FROM MONTREAL!

It is a delightfully feminine message worded in alluring crepe and faille afternoon dresses and punctuated with exclamation marks of flashing sequins and gay button work. Individually styled with intriguing pleats, side drapes and bustle effects, they reflect the current New York trend toward increased skirt interest.
